After Perfect Jul 08 2020 A "searing memoir of loss and redemption" (People) that "exposes the side of The Wolf of Wall Street we didn't get to see" (Metro), *After Perfect* is a cautionary tale about one family's destruction in the wake of the Wall Street implosion. Selected as one of the year's "Fifteen Books You Need to Read" by the Village Voice, Christina McDowell's unflinching memoir is "a tale of the American Dream upended." Growing up in an affluent Washington, DC, suburb, Christina and her sisters were surrounded by the elite: summering on Nantucket Island, speeding down Capitol Hill's rich back roads, flying in their father's private plane. Their life of luxury was brutally stripped away after the FBI arrested Tom Prousalis on fraud charges. When he took a plea deal as he faced the notorious Wolf of Wall Street Jordan Belfort's testifying against him, the cars, homes, jewelry, clothes, and friends that defined the family disappeared before their eyes, including the one thing they could never get back: each other. Christina writes with candid clarity about the dark years that followed and the devastation her father's crimes wrought upon her family: the debt accumulated under her identity; her mother's breakdown; her own spiral into addiction and promiscuity; and the delusion that enveloped them all. She shines a remarkable, uncomfortable light on a family's disintegration and takes a searing look at a controversial financial time and also at herself, a child whose "normal" belonged only to the one percent. A rare, insider's perspective on the collateral damage of a fall from grace, *After Perfect* is a poignant reflection on the astounding pace at which a life can change and how blind we can be to the ugly truth.

Simply Einstein: Relativity Demystified Feb 24 2022 With this reader-friendly book, it doesn't take an Einstein to understand the theory of relativity and its remarkable consequences. In clear, understandable terms, physicist Richard Wolfson explores the ideas at the heart of relativity and shows how they lead to such seeming absurdities as time travel, curved space, black holes, and new meaning for the idea of past and future. Drawing from years of teaching modern physics to nonscientists, Wolfson explains in a lively, conversational style the simple principles underlying Einstein's theory. Relativity, Wolfson shows, gave us a new view of space and time, opening the door to questions about their flexible nature: Is the universe finite or infinite? Will it expand forever or eventually collapse in a "big crunch"? Is time travel possible? What goes on inside a black hole? How does gravity really work? These questions at the forefront of twenty-first-century physics are all rooted in the profound and sweeping vision of Albert Einstein's early twentieth-century theory. Wolfson leads his readers on an intellectual journey that culminates in a universe made almost unimaginably rich by the principles that Einstein first discovered.

Inferno Jun 30 2022 I'm a rocker with the eyes of the world on me. Waiting for my triumph or my downfall...just

waiting. Most of my life is in my hands. My destiny? That's another story. My destiny isn't as debt free. My band, Phoenix Rising, arrives in Houston to cut a new album. Before we perform our first concert in the city and I choose my groupies of the night, I'm thrust into debauchery. Sleeping with a gorgeous woman twenty years older than me has its perks, especially when her husband orchestrated the encounter and eagerly watches. To me, performing is performing. If a man wants to share his wife, who am I to stop him? Unfortunately for me, I don't make a clean getaway as I leave the McCall mansion. Georgie, their sixteen-year-old daughter, is in the midst of her own intrigue, sneaking home in the middle of the night after an evening of drugs and sex with her older brother's best friend. In her, I see me. She's lost and drifting. Her hedonistic parents insist she's old enough to make her own decisions. Instead of time and love, they give her money and things. I'm a twenty-five-year-old international superstar and I know better. I'm cocky and arrogant. I know it so I own it. Somehow, I've always bested the fates. I have all to lose--my reputation, my career, and my freedom. Her mother's jealousy forces my hand and I take Georgie on tour. This is our story of our secret relationship and the destruction of my life. You know the adage about secrets? Three may keep a secret, if two of them are dead. Wise words from a wise man. If only I had listened. Secrets have a way of revealing themselves in the harshest way.

Transcending the Speed of Light Nov 11 2020 The space-time continuum of physics ignores the realm of the mind. But consciousness is unconfined by space or time and represents a higher organizing principle, a fifth dimension, that transcends the speed of light. Marc Seifer examines relativity, ether theory, precognition, telepathy, and synchronicity, all from the perspective of the conscious universe.

The Cave Dwellers Sep 02 2022 A compulsively readable novel in the vein of *The Bonfire of the Vanities*—by way of *The Nest*—about what Washington, DC's high society members do away from the Capitol building and behind the closed doors of their suburban mansions. They are the families considered worthy of a listing in the exclusive *Green Book*—a discriminative diary created by the niece of Edith Roosevelt's social secretary. Their aristocratic bloodlines are woven into the very fabric of Washington—generation after generation. Their old money and manner lurk through the cobblestone streets of Georgetown, Kalorama and Capitol Hill. They only socialize within their inner circle, turning a blind eye to those who come and go on the political merry-go-round. These parents and their children live life free of consequences in a gilded existence of power and privilege. But what they have failed to understand is that the world is changing. And when the family of one of their own is held hostage and brutally murdered, everything about their legacy is called into question. They're called *The Cave Dwellers*.

A dungeon so enormous, it circles the entire globe. Only a few dare venture inside. But once you're in, you can't get out. And what's worse, each level has a time limit. You have but days to find a staircase to the next level down, or it's game over. In this game, it's not about your strength or your dexterity. It's about your followers, your views. Your clout. It's about building an audience and killing those goblins with style. You can't just survive here. You gotta survive big. You gotta fight with vigor, with excitement. You gotta make them stand up and cheer. And if you do have that "it" factor, you may just find yourself with a following.
