Quilts and Quiltmakers Jul 19 2021 As one of the thirteen original colonies, Connecticut made unique contributions to the development of America's textile industry. They range from a signed and dated, pre-Revolutionary War Medallion quilt to a Grandmother's Flower Garden made by one of Connecticut's most prolific twentieth-century quiltmakers. Beyond the wonderful colors and shapes of the quilts are the fascinating stories of their makers, women and men whose lives were interwoven in Connecticut's rich history. Quilts May 05 2020 Marie Daugherty Webster (1859-1956) was a quilt designer, businesswoman, and the author of the first American book about quilting, *Quilts: Their Story, and How to Make Them*, published in 1915. Although Webster learned the art of fine hand sewing from her mother during her childhood and was a favourite pastime of hers, she did not start designing quilts until she was in her 50s. For most of her adult life, Webster lived in Marion, Indiana. Marie designed dozens of quilts, and her patterns, all applique, are known for their beautiful, mostly floral designs, done in pastel colours. These qualities made them unique at the time. She was inspired by the Arts and Crafts Movement. After requests for Webster's quilt patterns streamed into

her Marion, Indiana house, she published a four-page pattern catalog entitled *The New Patch-Work Patterns*. She also began her own business, officially named *The Practical Patchwork Company* in 1921.

Hidden in Plain View Mar 15 2021 The fascinating story of a friendship, a lost tradition, and an incredible discovery, revealing how enslaved men and women made encoded quilts and then used them to navigate their escape on the Underground Railroad. In *Hidden in Plain View*, historian Jacqueline Tobin and scholar Raymond Dobard offer the first proof that certain quilt patterns, including a prominent one called the Charleston Code, were, in fact, essential tools for escape along the Underground Railroad. In 1993, historian Jacqueline Tobin met African American quilter Ozella Williams amid piles of beautiful handmade quilts in the Old Market Building of Charleston, South Carolina. With the admonition to "write this down," Williams began to describe how slaves

made coded quilts and used them to navigate their escape on the Underground Railroad. But just as quickly as she started, Williams stopped, informing Tobin that she would learn the rest when she was "ready." During the three years it took for Williams's narrative to unfold—and as the friendship and trust between the two women grew—Tobin enlisted Raymond Dobard, Ph.D., an art history professor and well-known African American quilter, to help unravel the mystery. Part adventure and part history, *Hidden in Plain View* traces the origin of the Charleston Code from Africa to the Carolinas, from the low-country island Gullah peoples to free blacks living in the cities of the North, and shows how three people from completely different backgrounds pieced together one amazing American story. With a new afterword. Illustrations and photographs throughout, including a full-color photo insert.
