Basic Electrical Engineering Oct 30 2019 Although, a number of books, written by various authors on the subject are available in the market. However, the author feels that this book will facilitate the students not only to prepare for the regular University examinations. The book is also quite suitable for the professionals since many live examples have been incorporated. The book has the following exclusive features: (i) The Learning objectives of each chapter have been incorporated in the beginning to develop curiosity among the students. (ii) Practice exercise have been added in all the chapters after suitable intervals to impart necessary practice. (iii) At the end of each chapter, its summary highlights are given. This will enable the students to revise the subject matter quickly. (iv) A number of short answer and test questions have been given at the end of each chapter. While answering these questions, the readers will have to think deep into the subject matter. This will improve their analytical approach. Consequently, the students/readers will be in position to respond in a better way while appearing before the selection board or to deal with practical problems. (v) A

sufficient number of objective type questions (MCQ) have been given at the end of each chapter. These questions will help the students to perform better in the competitive examinations. (vi) The subject matter is treated in a simple and lucid manner so that an average student can understand the subject easily. Although, typical mathematical expressions are avoided but simple mathematical relations are used for better explanation and understanding.

The Most Scenic Drives in America, Newly Revised and Updated May 18 2021 The all-in-one trip planner and travel guide-now totally revised and updated-will steer you down the most scenic road every time. From Florida's Road to Flamingo to Hawaii's Oahu Coastal Loop . . . from British Columbia's Sea to Sky Highway to Cape Cod's Sandy Shores . . . each featured road trip is pictured in stunning full color and described in vivid text, keyed to an easy-to-follow newly revised map. Whether you choose a drive in a far corner of the continent or a back road in your own state, this book is your ticket to North America's most beautiful byways. Drives are grouped in four pictured-packed sections-Western, Mountain, Central, and Eastern states and provinces-and are accompanied by detailed, easy-to-use maps. New drives featuring some of Canada's most stunning destinations have been added. As a bonus, handy Trip Tip sidebars include: Mileage best season to travel nearby attractions special events "learn more" contact information including website addresses A special feature called Star Routes offers thumbnail sketches of shorter but especially scenic roads located in the same region as the main tours. Additional boxes highlight distinctive characteristics of the areas, including local plants, animals, customs, foods, and a variety of historical events. Whether on the road or in the comfort of your easy chair, this newly revised Reader's Digest travel guide will be a welcome companion.
