The Giant-Slayer Oct 31 2019 A girl's imagination transports polio-afflicted kids into a fantastic world. The spring of 1955 tests Laurie Valentine's gifts as a storyteller. After her friend Dickie contracts polio and finds himself confined to an iron lung, Laurie visits him in the hospital. There she meets Carolyn and Chip, two other kids trapped inside the breathing machines. Laurie's first impulse is to flee, but Dickie begs her to tell them a story. And so Laurie begins her tale of Colosso, a rampaging giant, and Jimmy, a tiny boy whose destiny is to become a slayer of giants. As Laurie embellishes her tale with gnomes, unicorns, gryphons, and other

fanciful creatures, Dickie comes to believe that he is a character in her story. Little by little Carolyn, Chip, and other kids who come to listen, recognize counterparts as well. Laurie's tale is so powerful that when she's prevented from continuing it, Dickie, Carolyn, and Chip take turns as narrators. Each helps bring the story of Colosso and Jimmy to an end—changing the lives of those in the polio ward in startling ways.

After leaving the main Mother Ship centuries ago to make a genetic trade with a massive race of people, they are thirty percent bigger than their ancestors. Now, hundreds of years after the genetic trade which made them so huge, the Jor'gen Kindred have no more females and are seeking a new people to trade with. Bram, their captain, has been dream-sharing with a female from a small, cold, rocky planet at the far edge of the galaxy. The problem? She's tiny compared to him. The other ladies at court sneer at her behind her back, wondering where she will ever find a man big enough to take her on. Enter Bram, a giant three feet taller than Alanah. Suddenly the formerly too-tall princess is feeling positively petite. But Alanah's planet is stuck in the Dark Ages and Kindred technology looks like magic to them-black magic. Can Alanah convince her people the giant race is safe to join with? And can she and Bram overcome their differences-both physical and emotional-to form a lasting relationship?You'll have to read Taming the Giant to find out.

Ancient Aliens and the Age of Giants: Through the Wormhole Sep 30 2019 Analyze thousands of years of giant skeletons from 7 to 15 feet tall, along with DNA evidence, genetic mutations, newspaper articles, archeological notes, and excerpts from the Smithsonian Institution's own records. Meet a living tribe of 19th century Stone Age giants. A leading anthropologist compared their bones to Cro-Magnon skeletons. Do they represent the original humans prior to the arrival of extraterrestrial giants, or the biblical Nephilim? Explore the advanced technology of the extraterrestrial giants: two-way radios, aircraft, self-propelled boats, wormholes, military vehicles, and aerial weapons that blasted Earth. Historical accounts, first-person encounters, plus legends and mythology tell us who they were, where they came from, how they interacted with humans, and left us with predictions of their return. There is a systematic attack on the evidence, however, that keeps giants mired in disbelief and ridicule. Documents are being rewritten one word at a time to give us an altered history that completely erases extraterrestrial giants, except in the realm of fairytales and fantasy. Dissect several alleged hoaxes and questionable discoveries for an in-depth look at how debunkers twist the facts: How does Area 51 and several missing witnesses fit into one of the biggest hoaxes in giant history? Were giant mummies used as a diversion for the Roswell UFO crash? Take an expanded look at the mummified, red-haired Lovelock giant found in Lovelock Cave, Nevada, and see how debunkers twisted the facts. Revisit the Los Lunas Decalogue Stone, and see how the Navajo translation was summarily dismissed by casting a shadow of doubt on the credentials of the translator - a translator whose credentials are impeccable. What happened to King Solomon's Cave in Montana? What turned this cave of giants into a giant hoax? The easiest way to hide the truth is to bury it under

accusations of incompetency, hoaxes and frauds, so that archeologists and anthropologists distance themselves from the controversy, and everyone questions the authenticity of the bones or artefacts. Meet specific giants including Goliath, King Og, Hiawatha, Odin, and The Watchers of the Bible. Go deep inside the Bible and its forbidden books. Compare Bible translations about the extraterrestrial Grigori giants and their landing site on Mount Hermon. Meet their hybrid descendants: the Nephilim giants, Elioud, Anakim, Rephaim, and others. Benevolent giants lifted humans up out of savagery and taught us agriculture, raising livestock, building shelters, reading and writing, astrology, astronomy, medicine, warfare, and road building. This coincides with the Neolithic Revolution that took us from the Stone Age into the Bronze Age. Human-Giant hybrids destroyed what their parents built, and they became cannibals. Chilling accounts of these giant cannibals span the entire world, leaving us with a truth that's almost too horrific to contemplate. The Fourth World of Native American mythology was the age of giants, and it was attacked by gods who left amazing evidence of their technology. Stolen artefacts, witch hunts, and the total annihilation of the bones of heretics and biblical giants eliminated a big chunk of evidence. The gruesome fate of old bones in general plunges us into a Twilight Zone of the bizarre. Today the Battle of the Bones rages on over old hoaxes and new laws. The fate of the giant bones goes far beyond denial or government cover-up, however. More important than the controversy over missing evidence is what will happen when the extraterrestrial giants return. Conspiracy theories keep humans busy with finger pointing and demands for the truth, when what we should really be focused on is who the extraterrestrial giants were, and what to expect when they return. Are we ready? Look at the evidence, and judge for yourself.

The Giant's House May 07 2020 “McCracken mixes the proper amount of lunacy with exactly the right amount of sorrow. The

blend is reminiscent of such late-20th-century treasures as *The Accidental Tourist*, *The World According to Garp*, or *A Confederacy of Dunces*.”—*Denver Post* The year is 1950, and in a small town on Cape Cod twenty-six-year-old librarian Peggy Cort feels like love and life have stood her up. Until the day James Carlson Sweatt— the “over-tall” eleven-year-old boy who’s the talk of the town—walks into her library and changes her life forever. Two misfits whose lonely paths cross at the circulation desk, Peggy and James are odd candidates for friendship, but nevertheless they soon find their lives entwined in ways that neither one could have predicted. In *James*, Peggy discovers the one person who’s ever really understood her, and as he grows—six foot five at age twelve, then seven feet, then eight—so does her heart and their most singular romance. Praise for *The Giant’s House* “Remarkable . . . McCracken has wit and subtlety to burn, as well as an uncanny ability to tap into the sadness that runs through the center of her characters’ worlds. This book is so lovely that, when you’re reading, you’ll want to sleep with it under your pillow.”—*Salon* A true marvel . . . thoroughly enjoyable from its unlikely beginning to its bittersweet end. . . McCracken knows all kinds of subtle, enticing secrets of the heart and conveys them in silky, transparent language.”—*San Francisco Chronicle* “Lovely . . . a tribute to the quiet passion of people trapped in isolation.”—*Los Angeles Times* “Fascinating . . . The reader finds herself entangled, body and soul, in this tender and endlessly strange novel, which is in all senses a hymn to human growth gone haywire and to a love so big it can’t hold its own magnificent limbs upright.”—*Elle* “Such is the incantatory power of McCracken’s eccentric tale that by its close we are completely in the grip of its strangely conceived ardor. . . . McCracken is as original a writer as they come. . . . I fell in love.”—Daphne Merkin, *The New Yorker*

The Dayspring Jan 15 2021

Giant Aug 29 2019 "Featuring James Dean, Rock Hudson, and Elizabeth Taylor, *Giant* is an epic film of fame and materialism, based around the discovery of oil at Spindletop and the establishment of the King Ranch of south Texas. Isolating his star cast in the wilds of West Texas, director George Stevens brought together a volatile mix of egos, insecurities, sexual proclivities, and talent. Stevens knew he was overwhelmed with Hudson's promiscuity, Taylor's high diva-dom, and Dean's egotistical eccentricity. Yet he coaxed performances out of them that made cinematic history, winning Stevens the Academy Award for Best Director and garnering nine other nominations, including a nomination for Best Actor for James Dean, who died before the film was finished. Don Graham chronicles the stories of Stevens, whose trauma in World War II intensified his ambition to make films that would tell the story of America; Edna Ferber, a

considerable literary celebrity, who meets her match in the imposing Robert Kleberg, proprietor of the vast King Ranch; and Glenn McCarthy, an American oil tycoon; and Errol Flynn lookalike with a taste for Hollywood. Drawing on archival sources Graham's Giant is a comprehensive depiction of the film's production showing readers how reality became fiction and fiction became cinema. "--Adapted from dust jacket.
