The Good Boot Dec 11 2020 Not long ago, my mom got into coloring books. She loves the patterns, and the peacefulness of bringing them to life with color. One day when she was low on designs to color, I drew her a few myself. They were not like the others. But she colored them in anyhow, and

they became much more beautiful that way. My first designs were soon joined by more. Then it was as if they had called their friends, and suddenly there were a lot more -- curious creatures, succulent vegetables, long-legged waterbirds. Some with extravagant footwear. So for those who (like us) enjoy coloring books, but see the world a bit differently, I thought I'd make some of these designs available as lemonsipper coloring books. The designs are printed (mostly) on one side of each page, for a more satisfying experience if you are coloring with markers. This book -- "The Good Boot" -- is the first in the series. It includes 26 full-sized designs to color, with a few small surprises along the way. Take a look inside to see some of the designs for yourself. I hope you enjoy! -- David Schulman

Legendary Motorcycles Feb 10 2021 Motorcycles are mythic, far more than mere transportation, but some are in a class of their own, truly legendary machines. There are the Triumphs: James Dean's, Marlon Brando's in The Wild Ones, the one Steve McQueen took over the fence in The Great Escape. There are Evel Knievel's and Elvis's Harleys, the Easy Rider Stars 'n' Stripes bike, and T. E. Lawrence's Brough Superior SS100; Von Dutch's Condor, Craig Vetter's Mystery Ship, and Mike Hailwood's Honda RC162. These are just some of the machines that have made motorcycle history, and that make this book a feast for the eyes and a fact-filled odyssey for the motorcycle aficionado. Illustrated with commissioned photographs and historical images, the book profiles the bikes--not just the models but the actual motorcycles--that have achieved legendary status in the last century. Their stories, told here in detail for the first time, make up the story of the motorcycle in American culture. Legendary Motorcycles Jan 30 2020 Motorcycles connote freedom and free spirits. They have inspired songs like "Born to Be Wild" and have helped make the image of James Dean. They've come

a long way from their ungainly two- and three-wheeled ancestors that first appeared in the late nineteenth-century. Packed with archival and specially commissioned photographs, this stunning volume traces the evolution of the motorcycle, documenting the major milestones in this illustrious history and spotlighting the most influential models that have emerged over the last century. Among the many manufacturers whose bikes are represented are BMW, Ducati, Harley-Davidson, Honda, Moto Guzzi, Suzuki, Triumph, and Yamaha, all of which are showcased in hundreds of brilliant color photographs. Accompanying the extraordinary photographs are the stories behind the vehicles, with a wealth of technical information about each motorcycle.

Expulsion and Diaspora Formation Apr 02 2020 The eleven essays brought together in this volume explore the relations between expulsion, diaspora, and exile between Late Antiquity and the seventeenth century. The essays range from Hellenistic Egypt to seventeenth-century Hungary and involve expulsion and migration of Jews, Muslims and Protestants. The common goal of these essays is to shed light on a certain number of issues: first, to try to understand the dynamics of expulsion, in particular its social and political causes; second, to examine how expelled communities integrate (or not) into their new host societies; and finally, to understand how the experiences of expulsion and exile are made into founding myths that establish (or attempt to establish) group identities.

Factory-Original Ford RS Cosworth May 28 2022 When Ford teamed up with Cosworth

Engineering to breathe life onto its humdrum Sierra, few knew it would be the birth of a motoring legend. Through circuit racing and supercar-humbling on-road ability, the 1985 Sierra RS Cosworth quickly became a household name. A practical four-seater boasting 204bhp from its two-litre turbocharged powerplant, the RS Cosworth's massive performance was equalled only by an extroverted rear wing designed for high-speed stability.. While motorsport machines scooped innumerable victories and increasingly powerful engines, in 1987 Ford homologated a yet-more-spectacular Sierra - the 224bhp RS500. It instantly became a desirable collector's piece.. Other RS Cosworths soon followed. The restrained four-door Sierra Sapphire RS Cosworth of 1988 was Ford's vision of a 150mph executive express; two years later, its four-wheel-drive successor returned the firm to rallying. By 1992, Ford had squeezed the 4x4's running gear into a shorter Escort body, complete with 227bhp engine and ever-more-aggressive aerodynamic aids. The limited-edition Monte Carlo came in 1994, followed by the final RS Cosworth - a revised Escort with smaller turbocharger and user-friendly appeal. Production ceased in 1996. Today, each model has a loyal following among motorsport fans and fast Fords enthusiasts. And as the cars become increasingly sought-after, so too does the pursuit of perfection. This book examines RS Cosworth authenticity, outlining standard specifications alongside in-depth colour photography of outstanding examples of the breed. From body panels and trim to turbochargers and tyres; from interior fabrics and paint schemes to shock absorbers and stickers, Ford's factory-original fitments are covered in comprehensive detail.

Coin Hoards Mar 02 2020 This, the ninth volume of Coin Hoards, is again dedicated solely to hoards of Greek coins. It includes hoards from all areas around the Mediterranean from the sixth century BC to the second century AD. Coin Hoards IX, together with the previous volumes in the series, thus

forms an essential supplement to the Inventory of Greek Coin Hoards, published in 1973 by Thompson, Morkholm and Kraay. Since the last volume, published eight years ago, the number of Greek coin hoards has increased considerably. Not only does this volume list new hoards, but it also updates and often amends information on hoards already published. Overall, the inventory for this volume consists of 744 entries, with detailed references to find-spot (if known), content, approximate burial date and bibliography. In addition to the inventory, Coin Hoards IX also contains the detailed publication of a number of significant hoards. An important aspect of this volume is the inclusion of 66 plates of photographs illustrating a large proportion of those coins described. This volume will be an indispensable tool for all future research in the field.

The Ducati Story - 6th Edition Oct 21 2021 The Ducati Story is brought right up to date in this new

edition of Ian Falloon's authoritative book, covering the complete history of the marque. Initially under government control, Ducati went through several decades of ups and downs, characterized by dubious managerial decisions. Held together by the great engineer Fabio Taglioni, the father of desmodromic valve gear, Ducati produced some of the finest motorcycles of the 1950s, 1960s and 1970s: the Marianna, desmo 125 single, Mach 1, 750 and Pantah. Taglioni also instigated Ducati's return to racing, and victory in the 1972 Imola 200 was the turning point. Mike Hailwood rode the 900 Ducati to victory in the 1978 Isle of Man Formula One race and Tony Rutter took four World TT2 Championships. Cagiva purchased Ducati in 1985, bringing a new engineer, Massimo Bordi, and new designs - most famously the Desmoquattro. In various guises, this model dominated the World Superbike Championship during the 1990s, particularly in the hands of Carl Fogarty. Landmark models included the 916 and Monster, and, with the sale of Ducati to the Texas Pacific Group in 1996, the company continued to grow. The racing program expanded to MotoGP and new model families were introduced. With control taken by the Italian company InvestIndustrial in 2006, Ducati embarked on the next era of development: Casey Stoner winning the MotoGP World Championship in 2007. Now under the Audi umbrella Ducati continues to thrive. This new edition includes a brand new chapter featuring all the models from 2012 up to 2018.

Brough Superior Oct 09 2020 George Brough started building motorcycles shortly after the First World War. The machines were named Brough Superior both to distinguish them from his father's Brough machines and to denote the highest levels of performance and quality of manufacture. Throughout the 1920s and 1930s, the name Brough Superior was synonymous with the very best in motorcycle design. The machines gained fame in the hands of riders such as Bert le Vack, Eric

Fernihough, Noel Pope and, of course, T. E. Lawrence 'Lawrence of Arabia'. This book documents the full story of Brough and Brough Superior from the early years of the twentieth century through to the end of production in the Second World War, and post-war attempts at revival.

Superbike 25 Exciting Years - The Official Book May 04 2020 The Superbike World Championship for modified "production" bikes was inaugurated way back in 1988, with high performance machinery normally destined for the road taking to the tracks for the first time to dispute a full championship season. The American Fred Merkel riding a Honda won the first two editions in 1988 and 1989. This was followed by a Ducati triple with titles for Raymond Roche in 1990 and Doug Polen in 1991 and '92. In the years that followed the likes of Carl Fogarty, Troy Corser, Colin Edwards and Troy Bayliss came to the fore aboard equally well-known bikes also raced in the same period by Pier Francesco Chili, perhaps the best-known Italian Superbike rider prior to the advent of Biaggi and Melandri. These 25 years are revisited for the first time in an official book that, season by season, reviews the technical, sporting and human stories of each championship through the ever-accurate texts of Claudio Porrozzini and above all the spectacular images of his brother Fabrizio, for years the official SBK World Championship photographer. Championship standings and statistics complete a book that is sure to be source of reference for all fans.

The Art of the Motorcycle Nov 29 2019

The Middle Kingdom Ride Sep 07 2020 When Canadian brothers Colin and Ryan Pyle set out from Shanghai on a motorcycle journey that had never previously been attempted, they thought they had some idea of what lay ahead of them. It was a misconception that had become evident by the end of Day 1. But, despite the many challenges they faced, 65 days and 18,000 km later they'd succeeded in circumnavigating China. In an expedition of extremes, Colin and Ryan visited the third lowest point on Earth and slept at Everest Base Camp beside its highest mountain. They travelled off-road through deep desert sand in suffocating heat, traversed mountain passes in freezing temperatures that turned the moisture in their clothes to ice, and rode in torrential rain through mudslides beside rapidly rising flood waters. At the end of their remarkable journey, the brothers has strengthened the bond between them, gained a Guinness World Record, tested their endurance to its limits, and shared an adventure that most of us will only ever dream of having. In this book Colin and Ryan take us with them as they travel through the diverse and extraordinary landscapes of China, from its border with North Korea, to the ancient Muslim city of Kashgar, across the vast empty spaces of the Mongolian grasslands, over the mountains and into the monasteries of Tibet.
