*Ministry of Justice: Judicial Review: Proposals for Further Reform - Cm. 8703 Mar 17 2021 Judicial review allows individuals, businesses and others to ask the court to consider whether, for example, a government*

*department has gone beyond its powers, a local authority has followed a lawful process or an arms-length body has come to a rational decision. As such, it is a crucial check to ensure lawful public administration. The expansion of judicial review has, in the government's view, led to abuse of the system. The earlier consultation "Judicial Review: Proposals for Reform" (ISBN 9780101851527), introduced changes to the time for bringing planning or procurement challenges and offered a way for courts to filter out unmeritorious challenges. This follow-up review seeks further reform in areas such as: the courts' approach to cases which rely on minor procedural defects; rebalancing financial incentives; speeding up appeals to the Supreme Court in a small number of nationally significant cases and planning challenges. Also this paper looks at the potential reform as to who can bring judicial review and whether alternative mechanisms exist to resolve disputes. The paper also includes a proposal in relation to the payment of legal aid providers in judicial review cases.*
