[The Worst Book Ever](#) Sep 21 2021 Elise Gravel wants to write a totally drab book; her characters want to let loos. Who's gonna win? Don't take the title as a metaphor: it really is the worst book ever. Governor General Literary Award winning children's book author and illustrator Elise Gravel takes readers on an unexpected journey through the world's most boring book. The story's characters and omniscient readers alike quickly become annoyed by the author's bland imagination and rebel against her tired tropes and stale character choices, spouting sass in an attempt to get her attention and steer the narrative in a more interesting direction. After all, you don't even have to buy the book, but the characters? They're stuck in there for an eternity, and they're going to do their best to make the most of it, or at least have a little fun where they can. As the charming and bizarre true nature of the characters overpowers the dry attributes given to them by the author, this once blasé story quickly picks up speed, transforming the story into something much more unique than originally promised. With Gravel's signature goofy characters behind the wheel, no silly twist or rude body function is off the table!

Assume the Worst May 06 2020 This is Oh, the Places You'll Never Go--the ultimate hilarious, cynical, but absolutely realistic view of a college graduate's future. And what he or she can or can't do about it. "This commencement address will never be given, because graduation speakers are supposed to offer encouragement and inspiration. That's not what you need. You need a warning." So begins Carl Hiaasen's attempt to prepare young men and women for their future. And who better to warn them about their precarious paths forward than Carl Hiaasen? The answer, after reading *Assume the Worst*, is: Nobody. And who better to illustrate--and with those illustrations, expand upon and cement

Hiaasen's cynical point of view--than Roz Chast, best-selling author/illustrator and National Book Award winner? The answer again is easy: Nobody. Following the format of Anna Quindlen's commencement address (Being Perfect) and George Saunders's commencement address (Congratulations, by the way), the collaboration of Hiaasen and Chast might look typical from the outside, but inside it is anything but. This book is bound to be a classic, sold year after year come graduation time. Although it's also a good gift for anyone starting a job, getting married, or recently released from prison. Because it is not just funny. It is, in its own Hiaasen way, extremely wise and even hopeful. Well, it might not be full of hope, but there are certainly enough slivers of the stuff in there to more than keep us all going.

Worst-Case Scenarios Jan 02 2020 Nuclear bombs in suitcases, anthrax bacilli in ventilators, tsunamis and meteors, avian flu, scorchingly hot temperatures: nightmares that were once the plot of Hollywood movies are now frighteningly real possibilities. How can we steer a path between willful inaction and reckless overreaction? Cass Sunstein explores these and other worst-case scenarios and how we might best prevent them in this vivid, illuminating, and highly original analysis. Singling out the problems of terrorism and climate change, Sunstein explores our susceptibility to two opposite and unhelpful reactions: panic and utter neglect. He shows how private individuals and public officials might best respond to low-probability risks of disaster--emphasizing the need to know what we will lose from precautions as well as from inaction. Finally, he offers an understanding of the uses and limits of cost-benefit analysis, especially when current generations are imposing risks on future generations. Throughout, Sunstein uses climate change as a defining case, because it dramatically illustrates the underlying principles. But he also discusses terrorism, depletion of the ozone layer, genetic modification of food, hurricanes, and worst-case scenarios faced in our ordinary lives. Sunstein concludes that if we can avoid

the twin dangers of overreaction and apathy, we will be able to ameliorate if not avoid future catastrophes, retaining our sanity as well as scarce resources that can be devoted to more constructive ends.

My Worst Best Friend Apr 04 2020 The best-selling author of *CONFESSIONS OF A DRAMA QUEEN* takes a smart, funny look at friendship, staying true to your identity, and moving on. (Ages 12 and up) Gracie and Savannah are best friends --and utterly unlike. Savannah is beautiful, outrageous, and irresistible to the opposite sex. Gracie is shy, smart, and would rather be studying lizards than meeting boys. Still, they've made a surprisingly great team, and (until now) it seemed as if nothing could come between them. But lately, Savannah's talent for lying and manipulating is becoming harder to ignore. She's fallen head over heels for an elusive college boy, and Gracie can't help wondering: is her friend as confident as she seems? When Savannah gets between Gracie and her crush, the line separating best friend from worst friend is crossed.

Best-Worst Scaling Mar 04 2020 First systematic treatment of best-worst scaling,

explaining how to implement, analyze, and apply the theory across a range of disciplines. [The Worst Thing I've Done](#) May 18 2021 Friends since childhood, Annie, Jake and Mason had a special bond that transcended all other relationships. When Annie's parents die on her and Mason's wedding night, the three friends decide to raise Annie's infant sister, Opal, together. Entangled relationships ensue between them and Annie struggles to be both a sister and a mother to Opal. And then, on one fateful night, the friends step over a line that has shocking, unforeseen consequences. Beautifully written and brilliantly vivid, this truth-telling and engaging novel of friendship, love and death and -- ultimately -- of resilience and understanding, will resonate long after each character tells their story.

[Hidden in Plain Sight](#) Jul 20 2021 The 2008 financial crisis—like the Great Depression—was a world-historical event. What caused it will be debated for years, if not generations. The conventional narrative is that the financial crisis was caused by Wall Street greed and insufficient regulation of the financial system. That narrative produced the Dodd-Frank Act, the most comprehensive financial-system regulation since the New Deal. There is evidence, however, that the Dodd-Frank Act has slowed the recovery from the recession. If insufficient regulation caused the financial crisis, then the Dodd-Frank Act will never be modified or repealed; proponents will argue that doing so will cause another crisis. A competing narrative about what caused the financial crisis has received little attention. This view, which is accepted by almost all Republicans in Congress and most conservatives, contends that the crisis was caused by government housing policies. This book extensively documents this view. For example, it shows that in June 2008, before the crisis, 58 percent of all US mortgages were subprime or other low-quality mortgages. Of these, 76 percent were on the books of government agencies such as Fannie Mae and Freddie Mac. When these mortgages defaulted in 2007 and 2008, they drove down housing prices and weakened banks and other mortgage holders, causing the crisis. After this book is published, no one will be able to claim that the financial crisis was caused by insufficient regulation, or defend Dodd-Frank, without coming to terms with the data this book contains.

[The Worst Hard Time](#) Dec 01 2019 In a tour de force of historical reportage, Timothy Egan's National Book Award-winning story rescues an iconic chapter of American history from the shadows. The dust storms that terrorized the High Plains in the darkest years of the Depression were like nothing ever seen before or since. Following a dozen families and their communities through the rise and fall of the region, Timothy Egan tells of their desperate attempts to carry on through blinding black dust blizzards, crop failure, and the death of loved ones. Brilliantly capturing the terrifying drama of catastrophe, he does equal justice to the human characters who become his heroes, "the stoic, long-suffering men and women

whose lives he opens up with urgency and respect" (New York Times). In an era that promises ever-greater natural disasters, *The Worst Hard Time* is "arguably the best nonfiction book yet" (Austin Statesman Journal) on the greatest environmental disaster ever to be visited upon our land and a powerful reminder about the dangers of trifling with nature. This e-book includes a sample chapter of *THE IMMORTAL IRISHMAN*.

What's the Worst That Could Happen? Sep 02 2022 It started with a ring. A cheap ring. The yellow metal said brass, not gold, and the sparkly bits were certainly not diamonds. But the ring belonged to May's horseplaying uncle, who swore it brought good luck. Dortmund, who wouldn't kick a little good luck out of bed, puts it to the test when he goes to burglarize Long Island billionaire Max Fairbanks. As luck would have it, Dortmund is greeted by Fairbanks himself - and a loaded gun - as soon as he strolls through the door. When the cops arrive, the mogul adds insult to injury by claiming that Dortmund's lucky ring is actually his. Big mistake, big guy. As soon as Dortmund can give the cops the slip, the world's most single-minded burglar goes after the fat cat with a vengeance and a team of crooks that only he can assemble. And from the get go everything will go Dortmund's way - everything, that is, except the ring.

American Crisis Jun 26 2019 NEW YORK TIMES BESTSELLER • Governor Andrew Cuomo tells the riveting story of how he took charge in the fight against COVID-19 as New York became the epicenter of the pandemic, offering hard-won lessons in leadership and his vision for the path forward. "An impressive road map to dealing with a crisis as serious as any we have faced."—The Washington Post When COVID-19 besieged the United States, New York State emerged as the global "ground zero" for a deadly contagion that threatened the lives and livelihoods of millions. Quickly, Governor Andrew Cuomo provided the leadership to address the threat, becoming the standard-bearer of the organized response the country desperately needed. With infection rates spiking and more people dying every day, the systems and functions necessary to combat the pandemic in New York—and America—did not exist. So Cuomo undertook the impossible. He unified people to rise to the challenge and was relentless in his pursuit of scientific facts and data. He quelled fear while implementing an extraordinary plan for flattening the curve of infection. He and his team worked day and night to protect the people of New York, despite roadblocks presented by a president incapable of leadership and addicted to transactional politics. Taking readers beyond the candid daily briefings that became must-see TV across the globe, and providing a dramatic, day-by-day account of the catastrophe as it unfolded, *American Crisis* presents the intimate and inspiring thoughts of a leader at an unprecedented historical moment. In his own voice, Andrew Cuomo chronicles the ingenuity and sacrifice required of so many to fight the pandemic, sharing the decision-making that shaped his policy as well as his frank accounting and assessment of his interactions with the federal government, the White House, and other state and local political and health officials. Real leadership, he shows, requires

clear communication, compassion for others, and a commitment to truth-telling—no matter how frightening the facts may be. Including a game plan for what we as individuals—and as a nation—need to do to protect ourselves against this disaster and those to come, *American Crisis* is a remarkable portrait of selfless leadership and a gritty story of difficult choices that points the way to a safer future for all of us.

What's the Worst Thing You Can Do to Shakespeare? Nov 23 2021 What's the worst thing you can do to Shakespeare? The answer is simple: don't read him. To that end, Richard Burt and Julian Yates embark on a project of un/reading the Bard, turning the conventional challenges into a roadmap for textual analysis and a thorough reconsideration of the plays in light of their absorption into global culture.

Dave Barry's Book of Bad Songs Dec 13 2020 When funnyman Dave Barry asked readers about their least favorite tunes, he thought he was penning just another installment of his weekly syndicated humor column. But the witty writer was flabbergasted by the response when over 10,000 readers voted. "I have never written a column that got a bigger response than the one announcing the Bad Song Survey," Barry wrote. Based on the results of the survey, *Dave Barry's Book of Bad Songs* is a compilation of some of the worst songs ever written. Dave Barry fans will relish his quirky take. Music buffs, too will appreciate this humorous stroll through the world's worst lyrics. The only thing wrong with this book is that readers will find themselves unable to stop mentally singing the greatest hits of Gary Puckett.

The Worst Thing She Ever Did Feb 24 2022 All Sophie wants is to forget what happened last summer. But that's not easy when people keep asking if she's okay, and her mother locks herself behind closed doors for hours at a time. The World's Worst Problems Nov 11 2020

This book addresses the worst problems currently facing humanity and those that may pose future threats. The problems are explained and approached through a scientific lens, and categorized based on data involving global mortality, vulnerability, and threat level. The book presents indices of problem severity to compare relative intensity of current and potential crises. The approach avoids emotional argument using mainly empirical evidence to support the classification of relative problem severity. The author discusses multiple global problems and ranks them. He also explores specific solutions to each problem, links problems to human behavior from a social science perspective, considers international cooperation, and finally pathways to solutions. The book discusses confirmation bias and why this necessitates a scientific approach to tackle problems. The moral assumption that each person has the same rights to life and minimal suffering, and that the natural world has a right to exist, forms the basis of ranking problems based on death, suffering, and harm to the natural world. A focus is given to potential disasters such as asteroid collisions and super-volcanic eruptions, which are then presented in chapters that address specific contemporary global issues including disease, hunger, nuclear weapons and climate change. Furthermore the author then ranks the problems based on an index of problem severity, considering what other people think the worst problems are. The relative economic costs to solve each of these problems, individual behavior in the face of these problems, how people could work together internationally to combat them, and a general pathway toward solutions form the basis of the final chapters. This work will appeal to a wide range of readers, students considering how they can help the world, and

scientists and policy makers interested in global problem solving./div

Never Saw It Coming Oct 30 2019

People—especially Americans—are by and large optimists. They're much better at imagining best-case scenarios (I could win the lottery!) than worst-case scenarios (A hurricane could destroy my neighborhood!). This is true not just of their approach to imagining the future, but of their memories as well: people are better able to describe the best moments of their lives than they are the worst. Though there are psychological reasons for this phenomenon, Karen A. Cerulo, in *Never Saw It Coming*, considers instead the role of society in fostering this attitude. What kinds of communities develop this pattern of thought, which do not, and what does that say about human ability to evaluate possible outcomes of decisions and events? Cerulo takes readers to diverse realms of experience, including intimate family relationships, key transitions in our lives, the places we work and play, and the boardrooms of organizations and bureaucracies. Using interviews, surveys, artistic and fictional accounts, media reports, historical data, and official records, she illuminates one of the most common, yet least studied, of human traits—a blatant disregard for worst-case scenarios. *Never Saw It Coming*, therefore, will be crucial to anyone who wants to understand human attempts to picture or plan the future. "In *Never Saw It Coming*, Karen Cerulo argues that in American society there is a 'positive symmetry,' a tendency to focus on and exaggerate the best, the winner, the most optimistic outcome and outlook. Thus, the conceptions of the worst are underdeveloped and elided. Naturally, as she masterfully outlines, there are dramatic consequences to this characterological inability to imagine and prepare for the worst, as the failure to heed memos leading up to both the 9/11 and NASA Challenger disasters, for instance, so painfully reminded us."--Robin Wagner-Pacifici, Swarthmore College "Katrina, 9/11, and the War in Iraq—all demonstrate the costliness of failing to anticipate worst-case scenarios. *Never Saw It Coming* explains why it is so hard to do so: adaptive behavior hard-wired into human cognition is complemented and reinforced by cultural practices, which are in turn institutionalized in the rules and structures of formal organizations. But Karen Cerulo doesn't just diagnose the problem; she uses case studies of settings in which people effectively anticipate and deal with potential disaster to describe structural solutions to the chronic dilemmas she describes so well. *Never Saw It Coming* is a powerful contribution to the emerging fields of cognitive and moral sociology."--Paul DiMaggio, Princeton University

What's the Worst That Could Happen? Oct 03 2022 Why catastrophic risks are more dangerous than you think, and how populism is making them worse. Did you know that you're more likely to die from a catastrophe than in a car crash? The odds that a typical US resident will die from a catastrophic event—for example, nuclear war, bioterrorism, or out-of-control artificial intelligence—have been estimated at 1 in 6. That's fifteen times more likely than a fatal car crash and thirty-one times more likely than being murdered. In *What's the Worst That Could Happen?*, Andrew Leigh looks at catastrophic risks and how to mitigate them, arguing provocatively that the rise of populist politics makes catastrophe more likely. Leigh explains that pervasive short-term thinking leaves us unprepared for long-term risks. Politicians sweat the small stuff—granular policy details of legislation and regulation—but rarely devote much attention to reducing long-term risks. Populist movements thrive on short-termism because they focus on their followers' immediate grievances. Leigh argues that we should be long-termers: broaden our thinking and give big threats the attention and resources they need. Leigh outlines the biggest existential risks facing humanity and suggests remedies for them. He discusses pandemics, considering the possibility that the next virus will be more deadly than COVID-19; warns that unchecked climate change could render large swaths of the earth uninhabitable; describes the metamorphosis of the arms race from a fight into a chaotic brawl; and examines the dangers of runaway superintelligence. Moreover, Leigh points out, populism (and its crony, totalitarianism) not only exacerbates other dangers but is also a risk factor in itself, undermining the institutions of democracy as we watch.

The Worst Team Money Could Buy Aug 09 2020 Even before the New York Mets began the 1992 season, they had set a critical record: the highest payroll ever for a major-league team, \$45 million. With players Bobby Bonilla, Vince Coleman, Bret Saberhagen, and Howard Johnson, winning another championship seemed a mere formality. The 1992 New York

Mets never made it to Cooperstown, however. Veteran newspapermen Bob Klapisch and John Harper reveal the extraordinary inside story of the Mets' decline and fall?with the sort of detail and uncensored quotes that never run in a family newspaper. From the sex scandals that plagued the club in Florida to the puritanical, no-booze rules of manager Jeff Torborg, from bad behavior on road trips to the downright ornery practical ?jokes? that big boys play, *The Worst Team Money Could Buy* is a grand-slam classic.

Hands-on exercises, parables, and real-life stories show readers how to apply the wisdom gained from studying the opponent to any challenge, whether within one's self, with friends or family, or between companies or nations, *Worst Enemy, Best Teacher* offers ingenious tips and techniques for learning from the enemy and converting conflict into resolution.

[When You Don't Like Your Story](#) Apr 16 2021 Bestselling author, cofounder of *Girlfriends in God*, and writer for *Proverbs 31 Ministries* Sharon Jaynes reveals the secret to living a better story: understanding that the worst parts of our past are the very things God uses most. Many people don't like the story God is writing in their lives. The mistakes, failures, tragedies, and circumstances outside of our control linger in our minds and hold us back. How do we come to grips with the pieces of our stories that we wish weren't there? How do we silence the pain of what has been done to us and the shame of what we've allowed to be done through us? In *When You Don't Like Your Story*, Bible teacher Sharon Jaynes shows us how God

untangles our most painful emotions with the fingers of grace, putting his redemption on display. In the hardest parts of our narratives, we get to see God's greatest work--and this changes the ending of our stories. As we overcome shame, offer forgiveness, and use our stories to help others, we find freedom from the past and learn to live in the restoration of the present.

It's a mixture of how-tos (like *How to Nap at Work* and *How to Watch TV at Your Desk*), tips for becoming untouchable (like memorizing social security and credit card numbers and endearing yourself to friends and family), and incredible personal stories from Sona's twelve years spent working for Conan that put their adorable closeness and professional dysfunction on display. In these pages, Sona

will explain her descent from eager, hard-working, ambitious, detail-orientated assistant to self-awarded title-holder for the worst in history. This book is irresistible fun you'll want to give to every young professional in your life. For readers of heartfelt humor like that of Phoebe Robinson and Colin Jost, *The World's Worst Assistant* is a chance for fans, viewers, and listeners of Conan's shows and podcast to fall in love with Sona and Conan all over again. *The Worst It Can Be Is A Disaster* May 30 2022 *The Worst It Can Be Is A Disaster* is the autobiography of Braham Murray, founding director of the Royal Exchange Manchester which in 2006 celebrated its thirtieth anniversary. With a foreword by Sir Tom Courtenay. Born into a Jewish family, Braham Murray struggled against his parents' expectations that he should follow them into the world of commerce; instead he became at twenty-two the youngest artistic director in the country when he took over Century Theatre, a theatre company based in Manchester.

Detailing his relationships and the theatrical successes and flops along the way, the narrative takes us through his early years with Century Theatre, with the 69 Theatre Company, and the birth of the Royal Exchange Manchester in the heart of Manchester in 1976. Twenty years later, the theatre rose from the ashes of the IRA bomb brilliantly opening a new production on time just ten days after the bomb had destroyed the city centre. The role and influence of the author's Jewish heritage and of his key collaborators - including Caspar Wrede and Michael Elliott - are explored in this illuminating and inspiring account of one of English theatre's great directors. 'Braham's passion is sometimes overwhelming, sometimes annoying but completely inspirational. It's his passion that the Royal Exchange has thrived on, and this book is full of his passion for the theatre.' Robert Lindsay

[Divorce Is the Worst](#) Jul 28 2019 Kids are told,

"it's for the best"--and one day, it may be. But right now, divorce is the worst. Frank but funny, Anastasia Higginbotham conveys the challenge of staying whole when your entire world, and the people in it, split apart. Exceptional in its child-centered portrayal, *Divorce Is the Worst* is an invaluable tool for families, therapeutic professionals, and divorce mediators struggling to address this common and complex experience.

[The Worst Thing I Could Do](#) Aug 01 2022

Maddie is a driven F.B.I. forensic researcher following a detailed life plan, until divorce turns her world, and plan, upside down. In an attempt to get her life back, she begins a research project at North Branch Correctional Facility with the determination that the success of the project, and subsequent promotion, is all that she needs to be happy. Enter Jonah, her handsome but off-limits research subject, is serving a thirty-eight-year sentence for armed robbery and assault. Unable to keep herself from doing the worst thing she could do, falling in love with Jonah, Maddie's life unravels, forcing her on an unexpected journey of self-discovery. Through love, loss, and one spontaneous trip, she must question her own assumptions about what makes for a happy life.
