National Parks Magazine uses images and language to convey our country's history and natural landscapes from Acadia to Zion, from Denali to the Everglades, and the 387 other park units in between.

Boat Accident Reconstruction and Litigation Sep 27 2019 This updated and revised edition has even more information to help you understand the complexities of boating accidents. In this edition are expanded chapters on boat accident reconstruction, an entirely new chapter on skipper responsibilities, and updated information recreational boating law. Whether you are a beginner or experienced litigator or any expert dealing with a boat accident, the information contained in this excellent resource will save you hours of research time hunting through less complete texts and online services. If you are a lawyer or an accident reconstructionist, this book will help you find appropriate data, analyze it, and determine cause in a boat accident. The book is a compendium of information useful in litigation dealing with activities in and on the water. The third edition of Boat Accident Reconstruction and Litigation covers everything from the way boats function to how they are designed. It introduces you to fluid mechanics and explains the numerous formulae and other methods used to analyze boat accidents. It even includes an extensive series of appendices of useful Coast Guard regulations and rules.

Federal Lands Jun 28 2022 This report provides information about the extent to which personal watercraft and snowmobiles are used on federal lands, the process by which decisions about their use are made, and the extent of monitoring being done in areas where their use is allowed. It focuses on the four major federal land management agencies, which manage about 95% of all federal lands: the Bureau of Land Management, the Fish and Wildlife Service, and the National Park Service, all in the Dept. of the Interior; and the Forest Service in the Dept. of Agriculture. Appendix I describes the report's scope and methodology; appendix II contains agency-by-agency responses to the questionnaire.
