Sibelius Sep 30 2022 Informed by a wealth of information that has come to light in recent years, this engaging biography tells the complete story of the life and musical work of Finnish composer Jean Sibelius (1865-1957). Drawing on Sibelius's own correspondence and diaries, contemporary reviews, and the remarks of family and friends, the book presents a rich account of the events of the musician's life. In addition, this volume is the first to set every work and performable fragment by Sibelius in its historical and musical context. Filling a significant gap, the biography also provides the first accurate information about much of the composer's early music. Writing for the general music-lover, Andrew Barnett combines his own extensive knowledge of Sibelius's music with the insights of other scholars and musicians. He lays to rest a number of myths and untruths—that Sibelius wrote no chamber music of value, for example, and that he stopped composing in 1926 and didn't need to compose to earn a living. Barnett completes the volume with the most thorough worklist available and an authoritative chronology of Sibelius's entire output.

Schubert's Beethoven Project May 15 2021 Why couldn't Schubert get his 'great' C-Major Symphony performed? Why was he the first composer to consistently write four movements for his piano sonatas? Since neither Schubert's nor Beethoven's piano sonatas were ever performed in public, who did hear them? Addressing these questions and many others, John M. Gingerich provides a new understanding of Schubert's career and his relationship to Beethoven. Placing the genres of string quartet, symphony, and piano sonata within the cultural context of the 1820s, the book examines how Schubert was building on Beethoven's legacy. Gingerich brings new understandings of how Schubert tried to shape his career to bear on new hermeneutic readings of the works from 1824 to 1828 that share musical and extra-musical pre-occupations, centering on the 'Death and the Maiden' Quartet and the Cello Quintet, as well as on analyses of the A-minor Quartet, the Octet, and of the 'great' C-Major Symphony.

Accessible Orchestral Repertoire Oct 27 2019 Accessible Orchestral Repertoire is a reference volume for conductors who lead non-professional symphonic orchestras, offering practical and insightful commentary on music appropriate for intermediate and advanced youth, community, and collegiate orchestras. Modeled on and complementary to Daniels' Orchestral Music, it is a repertoire and programming resource for youth, academic, and community orchestras. The works included in this book are a combination of well-known warhorses and lesser known gems—clear favorites for young or amateur players and as well as more challenging pieces. Functioning like an annotated bibliography, entries on individual works include information about the composer, instrumentation, movement length, and publisher. Each entry also features notes regarding the particular pedagogical, stylistic, logistical, and technical strengths and challenges of the specific work. Accessible Orchestral Repertoire will help every conductor in the process of selecting repertoire that will both feature and enrich any individual non-professional ensemble for which thoughtful and strategic programming is required.

Fanny Hensel Dec 22 2021 *Fanny Hensel (1805-1847) was an extraordinary musician and astute observer of European culture. Previously she was known mainly as the granddaughter of philosopher Moses Mendelssohn and the sister of composer Felix Mendelssohn Bartholdy, yet Hensel is now recognized as the leading woman composer of the nineteenth century. She produced well over four hundred compositions and excelled in short, lyrical piano pieces and songs of epigrammatic intensity, but the expressive range of her art also accommodated challenging virtuoso piano and chamber works, orchestral music, and cantatas written in imitation of J.S. Bach. Her gender and position in society restricted her from opportunities afforded her brother, however, who himself quickly rose to an international career of the first rank. Hensel's own sphere of influence revolved around her Berlin residence, where she directed concerts that attracted such celebrities as Franz Liszt, Clara Schumann, Clara Novello, and her brother Felix. In this semi-public space, shared with exclusive audiences drawn from the elite of Berlin society, Hensel found her own voice as pianist, conductor and composer. For much of her life, she composed for her own pleasure, and her brother ranked her songs among the very best examples of the genre. Felix silently incorporated several of the songs into his own early publications, while a few other songs were published anonymously. Hensel began releasing her works under her own name in 1847, only to die of a stroke as the first reviews of her music began to appear. Tragically, the vast majority of her music was forgotten for a century and a half before its recent rediscovery. Renowned Mendelssohn scholar R. Larry Todd now offers a compelling, full account of Hensel's life and music, her extraordinary relationship with her brother, her position in one of Berlin's most eminent families, and her courageous struggle to define her own public voice as a composer [Publisher description].*
