Chain Saw Confidential Jan 27 2022 When The Texas Chain Saw Massacre first hit movie screens in 1974 it was both reviled and championed. To critics, it was either "a degrading, senseless misuse of film and time" or "an intelligent, absorbing and deeply disturbing horror film." However it was an immediate hit with audiences. Banned and celebrated, showcased at the Cannes film festival and included in the New York MoMA's collection, it has now come to be recognized widely as one of the greatest horror movies of all time. A six-foot-four poet fresh out of grad school with limited acting experience, Gunnar Hansen played the masked, chain-saw-wielding Leatherface. His terrifying portrayal and the inventive work of the cast and crew would give the film the authentic power of nightmare, even while the gritty, grueling, and often dangerous independent production would test everyone involved, and lay the foundations for myths surrounding the film that endure even today. Critically-acclaimed author Hansen here tells the real story of the making of the film, its release, and reception, offering unknown behind-the-scenes details, a harrowingly entertaining account of the adventures of low-budget filmmaking, illuminating insights on the film's enduring and influential place in the horror genre and our culture, and a thoughtful meditation on why we love to be scared in the first place.

Mini Meadows Jul 09 2020 The word "meadow" conjures images of wide expanses of land, but a mini meadow — a kind of informal flower garden started with seed sown directly into the soil — can be any size; plus, it's fun, easy to grow, and good for the planet. With as little as 50 square feet and for less than \$20, gardeners can plant a colorful meadow that demands little in the way of space, mowing, or maintenance, uses less water than a traditional lawn, and provides habitat for pollinators — not to mention a natural exploration space for children. From choosing the right variety of seeds, preparing the soil, sowing evenly, and watering well, author Mike Lizotte guides readers through the process of successfully creating a miniature meadow that suits their climate, soil, and growing goals, whether planting to beautify a hellstrip, halt erosion, fill a boggy spot, or establish a nesting area for bees and butterflies. Mini Meadows offers gardeners of all levels the keys to creating, caring for, and reaping the rewards of thriving meadows through the seasons, year after year.

Sometimes a Great Notion Jun 27 2019 The magnificent second novel from the legendary author of *One Flew Over the Cuckoo's Nest* Following the astonishing success of his first novel, *One Flew Over the Cuckoo's Nest*, Ken Kesey wrote what Charles Bowden calls "one of the few essential books written by an American in the last half century." This wild-spirited tale tells of a bitter strike that rages through a small lumber town along the Oregon coast. Bucking that strike out of sheer cussedness are the Stampers. Out of the Stamper family's rivalries and betrayals Ken Kesey has crafted a novel with the mythic impact of Greek tragedy. The First Miscarriage of Justice Apr 17 2021 'I would have been the first miscarriage of justice... There was this spate of cases: the Birmingham Six, Guildford Four and Cardiff Three. Each one was another nail in my coffin': Tony Stock, 2008. The story of Tony Stock is astonishing: deeply disturbing it sent out ripples of disquiet when he was sentenced to ten years for robbery at Leeds Assizes in 1970. Over the next 40 years the case

went to the Court of Appeal four times and has the distinction of being the first to have been referred to that court twice by the Criminal Cases Review Commission. Tony Stock died in 2012 still fighting to clear his name: spending from his meagre savings to hire private investigators and hoping beyond hope to see justice. Reviews 'The story of Tony Stock should be mandatory reading for everyone, not merely those involved with the laws. It concerns the quality of our criminal justice system and its serious reluctance and unwillingness to root out injustice': Michael Mansfield QC. 'One of the most outrageous miscarriages of justice of modern times': Barry Sheerman, Labour MP for Huddersfield. In the Press 'If anyone seriously believes the Court of Appeal has reformed itself since the dark days of the Birmingham Six and Bridgewater Four, they should study the unreported and amazing case of Tony Stock': Private Eye. 'I would have thought that the injustice done to Tony (Stock) was fairly self-evident and yet his conviction still stands. I find this very difficult to accept': Ralph Barrington, investigations adviser at the Criminal Cases Review Commission. 'The fight for justice that will not die': Yorkshire Post.

Building a Log Cabin in Alaska in Four Months Dec 14 2020 This book should prove most helpful as a "how to" guide for a man working alone to build a strong, yet simple log cabin made to last. It can be a log cabin that a man can be proud to call his home or for a getaway home away from home on the weekend. I built the 13 by 41 foot cabin shell, including cutting down the trees and peeling off the bark, in three months while camping out in a tent. Cutting down the trees and peeling off the bark took more than half of the time in completing the shell of the cabin. It was hard work, but by using the trees on my property I saved money and it gave me a more satisfying feeling of accomplishment as I lived my dream. After about three months work the cabin was up and we moved from our tents into the cabin, however, the electrical wiring, well and plumbing, septic system, interior walls, chimney, and 8 by 28 foot add-on, which are covered in varying details (less on the wiring and plumbing) in this book, were worked on as I got the time and money. Overall, to complete the cabin, it took about four to five months time. The 757 square foot cabin was completed in about four months by working long hours, six days a week. The long camping experience was an ordeal for my wife, but my son and I enjoyed it. We thank God for His help and guidance through it all. The plans contained in this book are designed to allow a man working alone to build a cabin in a short time that will last a life time. I include an additional chapter about building a pergola type patio cover out of red cedar. 48 pictures are included in this book. Happy trails!
