[Tiny House in the Trees](#) Nov 08 2020 House enough to hold her dreams . . . Aspiring engineer Molly McGinnis is one master's thesis away from conquering the universe. But in the meantime, she's struggling to make ends meet, working at a tree farm while stowing away in a Tiny House on builder Bale Barrett's property. Of course, she only plans to hide out until the weather improves, or until she finishes her own Tiny House project . . . But when Bale discovers her, rather than send the hapless designer packing, he offers her a place to stay and solid advice, on her thesis--and her life. Just as Molly feels like she's getting back on her feet, things start to fall apart, like her project, and her romantic illusions about her outrageously good-looking boss, Quinn. It's enough to make a girl wonder if by focusing on the trees, she's missing the forest . . . Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts Dec 30 2019 This Old House meets Wayne's World in this zany guide to designing and building tiny homes Derek Diedricksen has always had a love for small, modest houses ever since his father gave him the book *Tiny Tiny Houses* by Lester Walker for his tenth birthday. Combining his artistic abilities, wild imagination, and his passion for small houses, he self-published *Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts, and Whatever the Heck Else we could Squeeze in Here* in 2009. This book is a collection of Diedricksen's creative/imaginative sketches for building small houses, shacks, cottages, and forts. The sketches are accompanied with hand-written commentary, both instructive and comical. Derek's main purpose is to get your creative juices flowing and encourage you to get off the couch and use your hands. Believing that specific building plans squash creativity, he avoids too many detailed instructions, giving you the chance to put your own creative spin on your very own small abode (even if it is just in your imagination).

South Island Tiny House Jul 05 2020 Back in 2014, my husband and I risked everything to move to New Zealand to start a new life together. ☐A tiny house on wheels was never part of our original plans but I can't imagine what our lives would be like if we hadn't built the South Island Tiny House. Although we didn't know it at the time, our tiny house journey began when we left our hectic lives in Boston with two suitcases each and our passports. But only a few months into our new lives in Christchurch, we were ready to call it quits and head home. We had moved all that way to end up living paycheck to paycheck in an overpriced, moldy flat. But then, as luck would have it we remembered the tiny house movement. Before the move, we loved watching tiny house videos on Youtube and found so much joy in imagining various tiny house layouts. So after taking stock of the risks, we decided to throw caution to the wind and put our life savings to work, and decided to build a tiny house together. Committing to building a fourteen-square-meter tiny house turned out to be just the

beginning! We had no clue that our tiny house would lead to job opportunities, a Youtube Channel, new friends, interviews and features on the DailyMail Australia, the Otago Daily Times and Stuff.co.nz, a side hustle building tiny house trailers, and now this book! This is your chance to read the intimate details of how we stumbled through our struggles and found joy through building and living in the South Island Tiny House.

The Big Tiny Sep 18 2021 Part how-to, part personal memoir, The Big Tiny is an utterly seductive meditation on the benefits of slowing down, scaling back, and appreciating the truly important things in life. More than ten years ago, a near-death experience abruptly reminded sustainability advocate and pioneer Dee Williams that life is short. So, she sold her sprawling home and built an eighty-four-square-foot house—on her own, from the ground up. Today, Williams can list everything she owns on one sheet of paper, her monthly housekeeping bills amount to about eight dollars, and it takes her about ten minutes to clean the entire house. Adapting a new lifestyle left her with the ultimate luxury—more time to spend with friends and family—and gave her the freedom to head out for adventure at a moment's notice, or watch the clouds and sunset while drinking a beer on her (yes, tiny) front porch.
