Criminal Law Jul 06 2020 A concise yet authoritative introduction to the subject, Criminal Law offers a stimulating account of the key topics in this area of law, illustrated through numerous case summaries. Exposition of the most recent case law and academic commentaries ensures a solid grounding in the core areas of a complex subject.

Critical Practice in P-12 Education: Transformative Teaching and Learning Jan 30 2020 "This book presents a framework for teaching that empowers students, fosters literacy development, and explains the underlying factors that influence pedagogy, highlighting practices from around the globe"--

Clinical Practice Guidelines for Midwifery & Women's Health Nov 21 2021 Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Clinical Practice Guidelines for Midwifery & Women's Health, Fourth Edition is a trusted quick reference guide to midwifery and well woman care. Completely updated and revised, this new edition reflects the rapidly changing clinical environment. It addresses documentation and risk management to aid in decision-making and appropriate document care. Convenient and easy-to-use, this new edition encompasses traditional, empirical, and evidence-based practice to meet the needs of a broad range of new and

experienced practitioners and patients. * Meets the recommendations of the American College of Nurse–Midwives (ACNM) and the Midwives Alliance of North America (MANA) for written policies and/or practice guidelines * Reflects current and emerging midwifery and women’s health practice * Provides support and guidance for daily clinical decision making

Research in Economic History Apr 14 2021 The latest volume in the series *Research in Economic History* contains articles on the economic history of Europe and the U.S.

Handbook of Prosocial Education May 28 2022 This handbook is the first definitive source on character education, social-emotional learning, and school climate improvement. Each chapter includes discussion of practices and models of education as well as theory and research that grounds these approaches. Case studies add the voices and insights of practitioners with experience in adopting, implementing, and evaluating prosocial education school reform strategies.

Handbook of Research on the Impact of Culture and Society on the Entertainment Industry Sep 19 2021 "This reference provides a review of the academic and popular literature on the relationship between communications and media studies, cinema, advertising, public relations, religion, food tourism, art, sports, technology, culture, marketing, and entertainment practices"--Provided by publisher.

Water Ecosystem Services Oct 28 2019 This comprehensive volume describes how ecosystem services-based approaches can assist in addressing major global and regional water challenges, such as climate change, biodiversity loss, and water security in the developing world, by integrating scientific knowledge from different disciplines, such as hydrological modelling, environmental economics, psychology and international law. Empirical assessments at the national, catchment and regional levels are used to critically appraise this systemic approach, and the merits and potential limitations are presented. The practicalities of this approach with regard to water resources management, nature conservation, and sustainable business practices are discussed, and the role of society in underpinning the concept of ecosystem services is explored. Presenting new insights and perspectives on how to shape future strategies, this contributory volume is a valuable reference for researchers, academics, students and policy makers, in environmental studies, hydrology, water resource management, ecology, environmental law, policy and economics, and conservation biology.

Research Handbook on Services Management Sep 27 2019 This comprehensive *Research Handbook* reflects the latest research breakthroughs and practices in services management. Addressing services management from a broader strategic perspective, it delves into the key issues of analytics and service robots, and their potential impact. Edited by the late Mark M. Davis, it represents an early foray into the new frontier of services management and provides insights into the future of the field.

The Hidden Tier of Social Services Feb 22 2022 What do frontline social service providers do during client interactions when they lack adequate formal organizational resources to respond to clients' needs? To answer this question, this *Element* presents two large-scale qualitative studies of Israeli frontline providers of social services. Drawing on interviews of public-sector workers (Study 1, N=214), it introduces a widespread phenomenon, where the vast majority of frontline workers regularly provide a large range of informal personal resources (IFRs) to clients. Study 2 (N=84) then compares IFR provision between workers from the public, nonprofit and private sectors. The comparative analysis demonstrates how workers' rationale for providing personal resources to clients is shaped by particular role perceptions embedded in values, norms and behavioral expectations that vary by employment sector. The *Element* concludes by presenting ramifications of the phenomenon of IFR provision in terms of citizens' wellbeing, social inequality, gender relations and the future of work in public administration.

Service-Oriented Computing Dec 11 2020 This book constitutes the refereed proceedings of the 11th International Conference on Service-Oriented Computing, ICSOC 2012, held in Berlin, Germany, in December 2013. The 29 full papers and 27 short papers presented were carefully reviewed and selected from 205 submissions. The papers are organized in topical sections on service engineering, service operations and management; services in the cloud; and service applications and implementations.

Crowdsourcing of Sensor Cloud Services Jan 12 2021 This book develops a crowdsourced sensor-cloud service composition framework taking into account spatio-temporal aspects. This book also unfolds new horizons to service-oriented computing towards the direction of crowdsourced sensor data based applications, in the broader context of Internet of Things (IoT). It is a massive challenge for the IoT research field how to effectively and efficiently capture, manage and deliver sensed data as user-desired services. The outcome of this research will contribute to solving this very important question, by designing a novel service framework and a set of unique service selection and composition frameworks. Delivering a novel service framework to manage crowdsourced sensor data provides high-level abstraction (i.e., sensor-cloud service) to model crowdsourced sensor data from functional and non-functional perspectives, seamlessly turning the raw data into “ready to go” services. A creative indexing model is developed to capture and manage the spatio-temporal dynamism of crowdsourced service providers. Delivering novel frameworks to compose crowdsourced sensor-cloud services is vital. These frameworks focuses on spatio-temporal composition of crowdsourced sensor-cloud services, which is a new territory for existing service oriented computing research. A creative failure-proof model is also designed to prevent composition failure caused by fluctuating QoS. Delivering an incentive model to drive the coverage of crowdsourced service providers is also vital. A new spatio-temporal incentive model targets changing coverage of the crowdsourced providers to achieve demanded coverage of crowdsourced sensor-cloud services within a region. The outcome of this research is expected to potentially create a sensor services crowdsourcing market and new commercial opportunities focusing on crowdsourced data based applications. The crowdsourced

community based approach adds significant value to journey planning and map services thus creating a competitive edge for a technologically-minded companies incentivizing new start-ups, thus enabling higher market innovation. This book primarily targets researchers and practitioners, who conduct research work in service oriented computing, Internet of Things (IoT), smart city and spatio-temporal travel planning, as well as advanced-level students studying this field. Small and Medium Entrepreneurs, who invest in crowdsourced IoT services and journey planning infrastructures, will also want to purchase this book.

Taking Law Seriously Jul 26 2019 This book celebrates the scholarship of Peter Cane. The significance and scale of his contributions to the discipline of law over the last half-century cannot be overstated. In an era of increasing specialisation, Cane stands out on account of the unusually broad scope of his interests, which extend to both private and public law in equal measure. This substantive breadth is combined with remarkable doctrinal, historical, comparative and theoretical depth. This book is written by admirers of Cane's work, and the essays probe a wide range of issues, especially in administrative law and tort law. Consistently with the international prominence that Cane's research has enjoyed, the contributors are drawn from across the common law world. The volume will be of value to anyone who is interested in Cane's towering contributions to legal scholarship and administrative law and tort law more generally.

Leading & Managing Occupational Therapy Services Aug 07 2020 Put theory and research into practice for real-world success. Here's your introduction to the use of theory, research, and evidence in guiding your practice as an occupational therapy manager. From leadership and supervision to policies, program development, and continuous quality improvement, you'll find complete coverage of the full range of issues and functions managers encounter in the real worlds in which they practice. Whatever your role, the practical knowledge and the guidance you'll find here will help you become a more effective OT, colleague, and manager.

ICMLG 2018 6th International Conference on Management Leadership and Governance Jun 24 2019 These proceedings represent the work of researchers participating in the 6th International Conference on Management, Leadership and Governance (ICMLG 2018) which is being hosted this year by the Institute for Knowledge and Innovation Southeast Asia (IKI-SEA), a Centre of Excellence of at Bangkok University, Thailand on 24-25 May 2018.

Media & Entertainment Law 2/e May 04 2020 Media and Entertainment Law presents a contemporary analysis of the law relating to the media and entertainment industry both in terms of its practical application and its theoretical framework. It provides a clear, current and comprehensive account of this exciting subject. Fully updated and revised, this second edition is one of the first texts to contain a full analysis of the Leveson Inquiry and the implications for our press and media that are arising from it. The new edition contains; a new chapter analysing the Defamation Act 2013; the Digital Economy Act 2010 which aimed to toughen up against copyright infringement online and has been subject to parliamentary review since coming into power; and the liability of internet service providers, including recent cases such as Tamiz vs Google 2012, which goes some way to define the extent to which an ISP may or may not be found liable for their bloggers content. With integrated coverage of Scots and Northern Irish law, Media and Entertainment Law also highlights comparisons with similar overseas jurisdictions, such as with the liability of ISPs where there are differences in both US and European law, in order to help students demonstrate an awareness of media laws, which may then influence UK legislation. Looking at key aspects such as TV and radio broadcasting, the print press, the music industry, online news and entertainment and social networking sites, this text provides detailed coverage of the key principles, cases and legislation as well as a critical analysis of regulatory bodies such as OFCOM and the new regulator for the UK's newspapers and magazines (and online editions), the Independent Press Standards Organisation (Ipsa). The text also provides the most comprehensive and up to date coverage of the law relating to Intellectual Property law for the entertainment industry with recent changes in EU law relating to performers' rights. [The Economic Development of Bangladesh in the Asian Century](#) Jun 28 2022 This book explains the macro-drivers of growth behind the economic development of Bangladesh. Few countries in the developing world have shown as exciting a promise of economic prosperity as Bangladesh. The promising nature of the Bangladeshi economy raises interesting questions pertaining to whether good governance may lead to sustained economic growth. This book looks at the strategic interventions on macro-level, specifically the policy interventions. This book will be a useful reference to making sense how economic transformation can be strengthened through state-sponsored activities and how states can inculcate a culture of innovation which can be regarded as one of the underpinnings of economic growth.

Teaching Food and Culture Oct 09 2020 With the rapid growth and interest in food studies around the U.S. and globally, the original essays in this one-of-a-kind volume aid instructors in expanding their teaching to include both the latest scholarship and engage with public debate around issues related to food. The chapters represent the product of original efforts to develop ways to teach both with and about food in the classroom, written by innovative instructors who have successfully done so. It would appeal to community college and university instructors in anthropology and social science disciplines who currently teach or want to develop food-related courses. This book -illustrates the creative ways that college instructors have tackled teaching about food and used food as an instructional device;-aims to train the next generation of food scholars to deal with the complex problems of feeding an ever-increasing population -contains an interview with Sidney Mintz, the most influential anthropologist shaping the study of food

Innovative Strategies for Heritage Language Teaching May 16 2021 Melding cutting-edge research with practical innovations in teaching practice, the contributors to this volume confront the limitations of existing approaches in heritage language learning to introduce new solutions informed by linguistic, sociolinguistic, and educational research on heritage languages. The result is a unique and essential text, the only comprehensive guide for the HL classroom based on the latest theory and research with practical suggestions for the classroom.

Character Strength Development Jun 04 2020 Character strengths are the foundations of life-long development and thriving. These strengths help individuals to deal with everyday challenges and move forward in life with confidence and resilience. *Character Strength Development: Perspectives from Positive Psychology* aims to document research and evidence-based practices in positive psychology with specific focus on character strengths. The arguments and perspectives shared by the experts in their respective chapters will help create new research avenues. It is an excellent resource for researchers, academicians, practitioners and teachers to develop a comprehensive understanding of different approaches, models and best practices for character education across the globe. Practitioners, educators and policymakers in the field of character education will also find this book immensely helpful for incorporating character strength-based approaches in their practice.

Web Services: Concepts, Methodologies, Tools, and Applications Nov 09 2020 Web service technologies are redefining the way that large and small companies are doing business and exchanging information. Due to the critical need for furthering automation, engagement, and efficiency, systems and workflows are becoming increasingly more web-based. *Web Services: Concepts, Methodologies, Tools, and Applications* is an innovative reference source that examines relevant theoretical frameworks, current practice guidelines, industry standards and standardization, and the latest empirical research findings in web services. Highlighting a range of topics such as cloud computing, quality of service, and semantic web, this multi-volume book is designed for computer engineers, IT specialists, software designers, professionals, researchers, and upper-level students interested in web services architecture, frameworks, and security.

Academic Libraries in the US and China Feb 10 2021 Academic libraries have a long history both in the USA and China, with institutions developing along different trajectories, and responding to the rapidly changing library environment globally. *Academic Libraries in the US and China* compares current practices within Library and Information Science (LIS) in the USA and China, giving an historical overview of instruction, government documents, and outreach in academic libraries, as well as discussion and comparative analysis. An introduction leads to chapters on instruction, government publications, and outreach. Each topic is covered both for American and Chinese academic libraries. A conclusion then gives comparative analysis of US and Chinese academic libraries. Provides a clear examination of the historical foundations of three key areas within the academic library Includes examples of easy-to-implement current practices Anticipates future trends

Community Service-Learning for Spanish Heritage Learners Apr 26 2022 This book proposes community service-learning as a critical pedagogy that connects learners and communities to address key challenges in heritage language education. The book's purpose is two-fold: to fill a crucial gap in empirical research on community service-learning in the heritage language context, as well as to provide language educators and practitioners essential guidelines for designing community service-learning courses, with particular attention paid to the characteristics and needs of Spanish heritage language learners. This book presents compelling evidence demonstrating the central role community service-learning plays in developing heritage language learners' identities, connections to the heritage language community, language attitudes, and social, cultural, and sociolinguistic awareness. Importantly, this book also addresses the often-overlooked perspectives of community partners and liaisons. As the first original research monograph on community service-learning for Spanish heritage language learners, this pioneering book will undoubtedly aid students, instructors and administrators across all levels of language education.

Using Tension as a Resource Jan 24 2022 This book focuses on the tensions that emerge in teaching the English language arts methods course within teacher education programs. It features chapters that grapple with the historical legacies of influence on methods/pedagogy as well as contemporary challenges in teaching methods courses alongside field experiences.

Community Engagement Program Implementation and Teacher Preparation for 21st Century Education Aug 31 2022 Education in the 21st century has been tasked with preparing students to begin the journey towards a place in their communities in which they feel fulfilled and autonomous. Service learning is one way to introduce students to careers and knowledge that will prepare them for a successful life. *Community Engagement Program Implementation and Teacher Preparation for 21st Century Education* examines the many ways in which community engagement is carried out in all educational settings, from K-12 to higher education. This publication is unique in its mission to examine these topics from a holistic perspective. From online education to volunteer organizations, this book gives educators, administrators, community volunteers, and students a window into the successful deployment of such programs to prepare students for a global society.

Todd & Watt's Cases and Materials on Equity and Trusts Jul 18 2021 This revised and updated text contains a range of relevant, interesting case law, statutory material, academic extracts and official proposals for law reform. A companion web site featuring web links and case updates ensures students have access to the latest materials.

Community/Public Health Nursing Practice Mar 02 2020 Focusing on practical, need-to-know information, *Community/Public Health Nursing Practice* helps you learn how to apply

the nursing process at the community and family level. It features an engaging, easy-to-understand writing style, as well as assessment tools, detailed case studies, and clinical examples that demonstrate how key concepts apply to real-world practice. Additional resources on the companion Evolve website expand and enhance content within the text. Practical features including Case Studies, Ethics in Practice, and The Nursing Process in Practice illustrate real-world applications of key community/public health nursing concepts. A complete unit on the community as client helps you understand how the assessment, diagnosis, planning, intervention, and evaluation steps of the nursing process apply to the community, as opposed to an individual. A chapter devoted to community assessment provides a complete assessment tool and shows you how the tool applies to two different types of communities. UNIQUE! A chapter on screening and referral promotes population-focused practice, which is the crux of community/public health nursing. A separate unit on the family emphasizes the importance of viewing the family as a singular client. A complete discussion of the Minnesota Wheel helps you better understand this widely-accepted framework for community/public health nursing practice. Helpful sections such as Focus Questions, Chapter Outlines, Key Ideas, and Learning by Experience and Reflection help you pinpoint essential information. NEW! Healthy People 2020 objectives throughout the text help you identify common health risk factors in populations and families. NEW! Coverage of health care reform, including the Patient Protection and Affordable Care Act of 2010 (PPACA), explores how current health care legislation impacts community/public health nursing. NEW! Discussions of community health "hot button" issues, such as human trafficking, genital circumcision, and bullying, introduce you to today's health care challenges. NEW! Information on weather-related disaster fatalities, bioterrorism, and national and state planning responses familiarize you with current, relevant issues which affect the health of populations worldwide and shape the role of the community/public health nurse.

e-Infrastructure and e-Services for Developing Countries Aug 26 2019 This book constitutes the thoroughly refereed proceedings of the 5th International Conference on e-Infrastructure and e-Services for Developing Countries, AFRICOMM 2013, held in Blantyre, Malawi, in November 2013. The 32 revised full papers presented were carefully reviewed and selected from 94 submissions. The papers discuss issues and trends, present research, innovation advances and on-the-field experiences related to e-governance, e-infrastructure, and e-business with a focus on developing countries.

An Introduction to the Law on Financial Investment Mar 26 2022 Since the publication of the first edition of this book in 2005, the world of financial investment has experienced an unprecedented boom followed by a spectacular bust. Significant changes have been proposed and in some cases implemented in areas such as the structure of regulation, the organisation of markets, supervision of market participants and the protection of consumers. The second edition takes account of these developments, integrating them into an analytical framework that enables the reader to develop a critical overview of the role of general legal rules and specialised systems of regulation in financial investment. The framework focuses on the role of contract, trusts and regulation as the primary legal influences for financial investment. The first part explores the relationship between investment, law and regulation. The second part examines the nature of investments and investors, both professional and private. The third part discusses the central role of corporate finance and corporate governance in linking investors with enterprises that require external capital. The fourth part examines the nature, operation and regulation of markets and the participants that support the functioning of the markets. The objective remains to provide a broadly-based and critical account of the role of law in financial investment. "MacNeil's eloquent and informative distillation of the regulatory fundamentals of investment law gives his book much international relevance...a timely contribution to help readers decipher the seemingly inextricable maze of financial regulation...Practitioners and legal policy advisers will..welcome it. They should find enlightening the book's careful scrutiny of the trust and contractual foundations of investment law and practice." Benjamin J Richardson *Journal of International Banking Law and Regulation*, Vol 22 Issue 1, 2007 ...a fascinating and informative book...thoroughly recommended as a learned but at the same time very readable introduction to the law of financial investment Gerard McCormack *Banking and Finance Law Review*, Volume 21 No 2, June 2006 ...very informative tool that introduces in a very friendly and accessible manner the nearly inextricable world of financial investment laws. Fadi Moghaizel *International Company and Commercial Law Review*, Vol. 17 No 2, February 2006

Commercial Law Jun 16 2021 Commercial Law covers the fundamental principles of the subject and the relevant case and statute law. Use of topical and relevant practical examples help draw out key principles and introductions to parts seek to link the law into its wider context

Research Anthology on Service Learning and Community Engagement Teaching Practices Oct 01 2022 The need for more empathetic and community-focused students must begin with educators, as service-learning has begun to grow in popularity throughout the years. By implementing service and community aspects into the classroom at an early age, educators have a greater chance of influencing students and creating a new generation of service-minded individuals who care about their communities. Teachers must have the necessary skills and current information available to them to provide students with quality service learning and community engagement curricula. The *Research Anthology on Service Learning and Community Engagement Teaching Practices* provides a thorough investigation of the current trends, best practices, and challenges of teaching practices for service learning and community engagement. Using innovative research, it outlines the struggles, frameworks, and recommendations necessary for educators to engage students and provide them with a comprehensive education in service learning. Covering topics such as lesson planning, teacher education, and cultural humility, it is a crucial reference for educators,

administrators, universities, lesson planners, researchers, academicians, and students.

Possibilities, Challenges, and Changes in English Teacher Education Today Oct 21 2021 This book focuses on English teacher educators' experiences concerning professionalization and teacher identity. Throughout the book, chapter authors articulate dilemmas that focus around professionalization and teacher identity, questioning what it means to be an English teacher today.

Regulating Strikes in Essential Services Dec 31 2019 Designing a fair, effective and acceptable regime that will reconcile public interest and the public's need for an uninterrupted flow of essential services on the one hand, while maintaining the freedom of collective bargaining on the other, is an ever more difficult public policy challenge. This book, the first detailed comparative analysis of existing legal and practical approaches across a spectrum of key national jurisdictions, provides a structured and insightful overview of the law and practice of regulating strikes in essential services. As such it can be of great value for public policy debate and the enhancement of national law in the field. The editors have assembled experts from fourteen countries who describe and analyse their respective country's experience with strikes in essential services and the legislative and judicial as well as informal approaches towards regulating and intervening in such strikes. Departing from legal theory with systematic comparative 'law in action' research, the contributors offer innumerable valuable insights into a broad array of issues and topics as the following: – mechanisms aiming at compensating employees for encroaching on their collective bargaining rights; – public accountability and responsible management of public finance; – role of international conventions; – effects of globalization and advances in technology; – privatization, outsourcing and the decline of unions and workers' solidarity; – growing popular intolerance towards strikes in essential services; – effect of human rights-related court decisions; – convergence and divergence among contemporary legal regimes in defining and approaching strikes in essential services; – dispute process design and dispute resolution processes (mediation, conciliation and arbitration); and – substantive and procedural restrictions on the right to organize, bargain collectively and strike. The country reports are preceded by a detailed analysis of the inherent normative policy dilemma and a conceptual framework for designing and evaluating models of regulation. The concluding chapter presents a comparative overview of the insights gained. With its comparative perspective on one of the most sensitive areas of industrial relations and labour law, and its contextually relevant options for strategic choice and public policy debate, this incomparable volume will be welcomed by labour lawyers, legislators, policy makers, judicial bodies and researchers in the field of collective labour relations and fundamental human rights of workers on the national as well as international level.

Using Genomics, Metagenomics and Other "Omics" to Assess Valuable Microbial Ecosystem Services and Novel Biotechnological Applications Aug 19 2021 Most ecosystem services and goods human populations use and consume are provided by microbial populations and communities. Indeed, numerous provisioning services (e.g. food and enzymes for industrial processes), regulating services (e.g. water quality, contamination alleviation and biological processes such as plant-microbial symbioses), and supporting services (e.g. nutrient cycling, agricultural production and biodiversity) are mediated by microbes. The fast development of metagenomics and other meta-omics technologies is expanding our understanding of microbial diversity, ecology, evolution and functioning. This enhanced knowledge directly translates into the emergence of new applications in an unlimited variety of areas across all microbial ecosystem services and goods. The varied topics addressed in this Research Topic include the development of innovative industrial processes, the discovery of novel natural products, the advancement of new agricultural methods, the amelioration of negative effects of productive or natural microbiological processes, as well as food security and human health, and archeological conservation. The articles compiled provide an updated, high-quality overview of current work in the field. This body of research makes a valuable contribution to the understanding of microbial ecosystem services, and expands the horizon for finding and developing new and more efficient biotechnological applications.

Enterprise Content Management in Information Systems Research Dec 23 2021 This book collects ECM research from the academic discipline of Information Systems and related fields to support academics and practitioners who are interested in understanding the design, use and impact of ECM systems. It also provides a valuable resource for students and lecturers in the field. "Enterprise content management in Information Systems research – Foundations, methods and cases" consolidates our current knowledge on how today's organizations can manage their digital information assets. The business challenges related to organizational information management include reducing search times, maintaining information quality, and complying with reporting obligations and standards. Many of these challenges are well-known in information management, but because of the vast quantities of information being generated today, they are more difficult to deal with than ever. Many companies use the term "enterprise content management" (ECM) to refer to the management of all forms of information, especially unstructured information. While ECM systems promise to increase and maintain information quality, to streamline content-related business processes, and to track the lifecycle of information, their implementation poses several questions and challenges: Which content objects should be put under the control of the ECM system? Which processes are affected by the implementation? How should outdated technology be replaced? Research is challenged to support practitioners in answering these questions.

The Modern Law of Evidence Apr 02 2020 A superbly clear, direct, and detailed explanation of the rules that underpin the law of evidence. The Modern Law of Evidence is a lucid, engaging, and authoritative guide to a fascinating and stimulating subject. Straightforward and practical in approach, it also provides concise and focused analysis of the theory behind

the law, with an emphasis on recent discussion and current debates. An ideal text for undergraduates and students studying on the Bar Professional Training Course and Legal Practice Course, *The Modern Law of Evidence* is also an authoritative reference point for practitioners and judges. Online Resources *The Modern Law of Evidence* is accompanied by online resources, including: - Selected guidance on approaching the questions contained in the book - General advice on taking examinations in evidence - Regular updates on key developments - A list of web links to essential resources

Clinical Practice Guidelines We Can Trust Jul 30 2022 Advances in medical, biomedical and health services research have reduced the level of uncertainty in clinical practice. Clinical practice guidelines (CPGs) complement this progress by establishing standards of care backed by strong scientific evidence. CPGs are statements that include recommendations intended to optimize patient care. These statements are informed by a systematic review of evidence and an assessment of the benefits and costs of alternative care options. *Clinical Practice Guidelines We Can Trust* examines the current state of clinical practice guidelines and how they can be improved to enhance healthcare quality and patient outcomes. Clinical practice guidelines now are ubiquitous in our healthcare system. The Guidelines International Network (GIN) database currently lists more than 3,700 guidelines from 39 countries. Developing guidelines presents a number of challenges including lack of transparent methodological practices, difficulty reconciling conflicting guidelines, and conflicts of interest. *Clinical Practice Guidelines We Can Trust* explores questions surrounding the quality of CPG development processes and the establishment of standards. It proposes eight standards for developing trustworthy clinical practice guidelines emphasizing transparency; management of conflict of interest ; systematic review--guideline development intersection; establishing evidence foundations for and rating strength of guideline recommendations; articulation of recommendations; external review; and updating. *Clinical Practice Guidelines We Can Trust* shows how clinical practice guidelines can enhance clinician and patient decision-making by translating complex scientific research findings into recommendations for clinical practice that are relevant to the individual patient encounter, instead of implementing a one size fits all approach to patient care. This book contains information directly related to the work of the Agency for Healthcare Research and Quality (AHRQ), as well as various Congressional staff and policymakers. It is a vital resource for medical specialty societies, disease advocacy groups, health professionals, private and international organizations that develop or use clinical practice guidelines, consumers, clinicians, and payers.

Using Video to Develop Teaching Mar 14 2021 The introduction of digital technology to video use has opened up new opportunities for raising the quality of teaching and learning. This book provides the first integrated account of how digital video can be used to develop teaching competence. It shows not only how using video can help teachers move towards more dialogic forms of teaching and learning, but also how such change benefits pupils' learning and behaviour. Based on extensive literature reviews this book provides an overview of "visual teacher learning" and summarises what is known about instructional improvements that teachers can achieve by engaging in it. These reviews and the author's empirical studies explain the activities, processes and organisational conditions needed for implementing visual teacher learning in teacher education and professional development. The book concludes with practical resources for practitioners incorporating the lessons drawn from theory and research.
