An Empire of Print Aug 26 2019 Home to the so-called big five publishers as well as hundreds of smaller presses, renowned literary agents, a vigorous arts scene, and an uncountable number of aspiring and established writers alike, New York City is widely perceived as the publishing capital of the United States and the world. This book traces the origins and early evolution of the city's rise to literary preeminence. Through five case studies, Steven Carl Smith examines publishing in New York from the post-Revolutionary War period through the Jacksonian era. He discusses the gradual development of local, regional, and national distribution networks, assesses the economic relationships and shared social and cultural practices that connected printers, booksellers, and their customers, and explores the uncharacteristically modern approaches taken by the city's preindustrial printers and distributors. If the cultural matrix of printed texts served as the primary legitimating vehicle for political debate and literary expression, Smith argues, then deeper understanding of the economic interests and political affiliations of the people who produced these texts gives necessary insight into the emergence of a major American industry. Those involved in New York's book trade imagined for themselves, like their counterparts in other major seaport cities, a robust business that could satisfy the new nation's desire for print, and many fulfilled their ambition by cultivating networks that crossed regional boundaries, delivering books to the masses. A fresh interpretation of the market economy in early America, An Empire of Print reveals how New York started on the road to becoming the publishing powerhouse it is today.

Edward Hopper's New York Nov 09 2020 Illustrated by over 50 of Edward Hopper's most powerful evocations of New York, Avis Berman's essay explores how Hopper and his work illuminate each other by analyzing what his New York is - and is not. Ever the contrarian, he offers an alternative to what other American artists seized on - the new, the gigantic, the technologically exciting. Hopper stayed away from tourist attractions or landmarks of the city's glamorous skyline. His preference for nondescript vernacular buildings is emblematic of the larger Hopper paradox: he makes emptiness full, silence articulate, banality intense, plainness mysterious, and tawdriness noble.

The Negro Motorist Green Book Aug 31 2022 The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

The Japanese Print Mar 14 2021 This straightforwardly written and highly informative book is designed to serve as an introduction to Japanese prints for the student and the beginning collector. It is both a history and a guide. While the paintings and illustrated books of the printmakers are mentioned only in passing, the account of the Japanese print is not limited to the history of ukiyo-e but includes a discussion of the Buddhist prints of the medieval period and the prints of the modern age starting with the Meiji era and coming up to the present. Thus not only masters as Harunobu, Kiyonaga, Utamaro, Sharaku, Hokusai and Hiroshige are presented, but also such modern luminaries as Onchi, Hiratsuka and Munakata. -- Provided by publisher.
