So, in the same way as you require the book swiftly, you can straight acquire it. Its suitably extremely easy and so fats, isnt it? You have to favor to in this way of being

[Gambling Disorders in Women](#) Nov 06 2020 This book brings together an international selection of academics with expertise in problem gambling issues in women, with chapters reflecting ongoing work with female gamblers across the world in both group and individual settings. In choosing such a specific patient group, the authors aim to raise the profile of gambling disorders in women and also provide fellow professionals across the world with a shared understanding of evidence based treatment and recovery in problem gambling literature and research. *Gambling Disorders in Women: An International Female Perspective on Treatment and Research* will provide professionals working in addictions and policy-making with much-needed knowledge about a seriously under-represented area, and about which many professionals feel they would like to know more. The book will also highlight different international approaches to the provision of treatment for women in each country as well as the epidemiology of the illness.

Invisible Women Sep 04 2020 Data is fundamental to the modern world. From economic development, to healthcare, to education and public policy, we rely on numbers to allocate resources and make crucial decisions. But because so much data fails to take into account gender, because it treats men as the default and women as atypical, bias and discrimination are baked into our systems. And women pay tremendous costs for this bias, in time, money, and often with their lives. Celebrated feminist advocate Caroline Criado Perez investigates shocking root cause of gender inequality and research in *Invisible Women*†, diving into women's lives at home, the workplace, the public square, the doctor's office, and more. Built on hundreds of studies in the US, the UK, and around the world, and written with energy, wit, and sparkling intelligence, this is a groundbreaking, unforgettable exposé that will change the way you look at the world.

Nutrition in Women's Health Oct 17 2021 Health Sciences & Nutrition

[Neurologic Disease in Women](#) Sep 16 2021 Although there appears to be a general understanding that the human brain functions similarly in women and in men, an increasing body of knowledge indicates that neuronal connectivity, recruitment, and disease patterns exhibit gender differences. There are clear gender differences in genetic expression, physiologic function, metabolism, hormonal makeup, and psychosocial profile, which often modify the clinical expression of neurologic and other diseases. In addition, ethnic, cultural, and economic factors are frequently overlooked in dealing with health problems of women, even though they undoubtedly have a strong influence on the clinical course of the illness. The second edition of *Neurologic Disease in Women*, the only text to specifically cover this important topic, will help physicians and other medical personnel seeking information relevant to clinical care. Sections address general anatomic, hormonal, epidemiologic, and drug aspects of women's health; neurologic conditions that arise during childhood, pregnancy, adulthood, and old age in females; and particular neurologic conditions that present differently or predominantly in females. There have been important advances in several areas prompting new chapters, new approaches and additional information provided in chapters on hormonal effects in women and the use of HRT; the adverse effects of antiepileptic drugs on hormonal homeostasis, weight and bone health; and cardiovascular diseases in women. New chapters include ones on reproductive and metabolic disorders with AED use, and on movement disorders.

New Dimensions in Women's Health Jul 26 2022 A Fully Revised And Updated Edition Of The Classic Women'S Health Text *New Dimensions In Women'S Health: Sixth Edition* Is A Comprehensive And Practical Text That Offers Students The Tools To Understand The Health Of Women Of All Cultures, Races, Ethnicities, Socioeconomic Backgrounds, And Sexual Orientations. Each Chapter Reviews An Important Dimension Of A Woman'S General Health And Examines The Contributing Epidemiological, Historical, Psychosocial, Cultural, Ethical, Legal, Political, And Economic Influences.

Nothing Bad Happens to Good Girls Apr 23 2022 Sociologist Esther Madriz presents a compelling analysis of how women in the United States perceive the threat of crime in their everyday lives and how that perception controls their behavior. With the enormous attention given to crime today, Madriz's informative study is especially timely.

Resources in Women's Educational Equity Mar 30 2020

Independent Women Oct 25 2019 Martha Vicinus's subject is the middle-class English woman, the first of her sex who could afford to live on her own earnings 'outside heterosexual domesticity or church governance.' She wanted and needed to work. Meticulous, resonant, original, triumphant, *Independent Women* tells of the efforts and endurance of this Victorian woman; of her courage and the constraints that she rejected, accepted, and created. . . . The independent women are the 'foremothers' of any women today who seeks significant work, emotionally satisfying friendships, and a morally charged freedom."—from the Foreword by Catharine R. Stimpson "Feminist insight combines with vast research to produce a dramatic narrative. *Independent Women* chronicles the energetic lives and imaginative communal structures invented by women who 'pioneered new

occupations, new living conditions, and new public roles.'"—Lee R. Edwards, Ms. "Vicinus is to be congratulated for her brave and unflinching portraits of twisted spinsters as well as stolid saints. That she stretches her net up into the '20s and covers the women's suffrage moment is a brilliant stroke, for one may see clearly how it was possible for women to mount such an enormous and successful political campaign."—Jane Marcus, Chicago Tribune Book World "Vicinus' beautifully written book abounds in rich historical detail and in subtle psychological insights in the character of its protagonists. The author understands the complexities of the interplay between economic and social conditions, cultural values, and the aims and aspirations of individual personalities who act in history. . . . A superb achievement."—Gerda Lerner, Reviews in American History "Martha Vicinus has with intelligence and energy paved and landscaped the road on which scholars and students of activist women all travel for many years."—Blanche Wiesen Cook, Women's Review of Books "Independent Women can be read by anyone with an interest in women's history. But for all contemporary women, unconsciously enjoying privileges and freedoms once bought so dearly, this book should be required reading."—Catharine E. Boyd, History

Organizing Strategies in Women's Health Aug 23 2019

The A-Z of Wonder Women Jan 08 2021 Celebrate historic and contemporary Wonder Women from around the world, from Ada Lovelace to Zaha Hadid! Highlighting notable and inspiring women from across the globe and throughout time, The A-Z of Wonder Women features biographies of trailblazers and groundbreakers, including Ada Lovelace, Oprah Winfrey, Ruth Ginsberg, and Wajeha al-Huwaider. This empowering alphabet-style book celebrates a wide range of skills and masteries in the arts, politics and activism, STEM, and more, providing accessible facts about these heroic women--and inspiring young readers to make the change they want to see in the world.

Archetypal Patterns in Women's Fiction Jan 20 2022 Archetypal patterns endure because they give expression to perennial dilemmas submerged in the collective unconscious. Having examined more than 300 novels by both major and minor women writers over three centuries, Annis Pratt perceives in women's fiction distinctive elements of plot, characterization, image, and tone. She argues that women's fiction should be read as a mutually illuminative or interrelated field of texts reflecting feminine archetypes that are signals of a repressed tradition in conflict with patriarchal culture. Pratt suggests that the archetypal patterns in women's fiction provide a ritual expression containing the potential for the reader's personal transformation and that women's novels constitute literary variations on preliterate folk practices that are available in the realm of imagination even when they have long been absent from day-to-day life.

Junctures in Women's Leadership: the Arts Feb 27 2020 Brodsky and Olin profile female leaders in music, theater, dance, and visual art. The diverse women included in this volume have made their mark as arts leaders by serving as executives or founders of art organizations, by working as activists to support the arts, or by challenging stereotypes about women in the arts.

Migraine in Women May 12 2021 Fifteen specialists serve as chapter authors, covering sex hormones and genetics, as well as the social, cultural, psychiatric, and psychological factors that contribute to headache disorders. Their approach is evidence-based, but where there are gaps in research, the authors provide advice based on expert consensus and clinical experience. Each chapter opens with a case report that synthesizes the chapter's treatment recommendations, as well as key points listing the chapter's contents. The main body of the chapter features an introductory overview, a closing summary, tables, and an extensive list of suggestive reading.

Primary Care Procedures in Women's Health Dec 27 2019 This book provides primary care physicians and their medical teams with the detailed information they need to offer a full range of women's health procedures to their patients. Many primary care providers offer women's health procedures in an office setting for a variety of reasons, from the value placed on continuity of care to the lack of access to specialty care that patients may experience in rural areas. Each chapter in this book is written by a primary care physician and outlines one women's health procedure and its background information, indications, contraindications, complications, equipment, procedure steps, an office note, patient instructions and a patient handout. Tricks, helpful hints, key points, discussion questions, algorithms, and a wealth of illustrations are included through the book. This second edition is fully updated with the latest procedures and guidelines, ICD 10 coding information, and three new chapters on population health, contraceptive choice, and insertable contraceptive removal. Primary Care Procedures in Women's Health, Second Edition, is an ideal reference for all providers—including family physicians, general internists, residents, nurse practitioners, nurse midwives and physicians assistants—to be competent and comfortable performing a spectrum of office-based, women's health procedures.

Professing Feminism Jun 25 2022 Feminists have often called Women's Studies the 'academic arm of the women's movement.' But Daphne Patai and Noretta Koertge charge that the attempt to make Women's Studies serve a political agenda has led to deeply problematic results: dubious scholarship, pedagogical practices that resemble indoctrination more than education, and the alienation of countless potential supporters. In this new and expanded edition of their controversial 1994 book, the authors update their analysis of what's gone wrong with Women's Studies programs. Original chapters feature interviews with professors, students, and staffers who invested much time and effort in Women's Studies, and new chapters look primarily at documents recently generated from within Women's Studies itself. Through critiques of actual program mission statements, course descriptions, newsletters, and e-mail lists devoted to feminist pedagogy and Women's Studies, and, not least, the writings of well-known feminist scholars, Patai and Koertge provide a detailed and devastating examination of the routine practices found in feminist teaching and research.

In Search of Safety Nov 18 2021 In Search of Safety takes a close look at the sources of gendered violence and conflict in women's prisons. The authors examine how intersectional inequalities and cumulative disadvantages are at the root of prison conflict and violence and mirror the women's pathways to prison. Women must negotiate these inequities by developing forms of prison capital—social, human, cultural, emotional, and economic—to ensure their safety while inside. The authors also analyze how conflict and subsequent violence result from human-rights violations inside the prison that occur within the gendered context of substandard prison conditions, inequalities of capital among those imprisoned, and relationships with correctional staff. In Search of Safety proposes a way forward—the implementation of international human-rights standards for U.S. prisons.

Psychosexual Functions in Women Nov 25 2019

Vascular Disease in Women Sep 28 2022 Vascular Disease in Women highlights the epidemiology, natural history and treatment of vascular disease, specifically as it pertains to women. The book provides a thorough overview of what is known and what is now known about vascular disease in women and highlights opportunities for further education and research on this topic. The book will serve as an essential reference for both clinicians and researchers, discussing the disease prevalence, treatment options, and treatment outcomes for vascular disease in women and explores the need for future research in vascular disease specifically as it pertains to women. Provides a comprehensive overview of vascular disease as it affects women Includes contributions from world-renowned vascular surgeons of both genders, who have a vested interest in women's vascular health Covers what is known and not known about vascular disease in women, prompting further research in the area for what is still unknown

Women as Scribes Dec 19 2021 Publisher Description

Kentucky Women Mar 22 2022 Kentucky Women: Their Lives and Times introduces a history as dynamic and diverse as Kentucky itself. Covering the Appalachian region in the east to the Pennyroyal in the west, the essays highlight women whose aspirations, innovations, activism, and creativity illustrate Kentucky's role in political and social reform, education, health care, the arts, and cultural development. The collection features women with well-known names as well as those whose lives and work deserve greater attention. Shawnee chief Nonhelema Hokolesqua, western Kentucky slave Matilda Lewis Threlkeld, the sisters Emilie Todd Helm and Mary Todd Lincoln, reformers Madeline Mc- Dowell Breckinridge and Laura Clay, activists Anne McCarty Braden and Elizabeth Fouse, politicians Georgia Davis Powers and Martha Layne Collins, sculptor Enid Yandell, writer Harriette Simpson Arnow, and entrepreneur Nancy Newsom Mahaffey are covered in Kentucky Women, representing a broad cross section of those who forged Kentucky's relationship with the American South and the nation at large. With essays on frontier life, gender inequality in marriage and divorce, medical advances, family strife, racial challenges and triumphs, widowhood, agrarian culture, urban experiences, educational theory and fieldwork, visual art, literature, and fame, the contributors have shaped a history of Kentucky that is both grounded and groundbreaking.

Contributors: Lindsey Apple on Madeline McDowell Breckinridge; Martha Billips on Harriette Simpson Arnow; James Duane Bolin on Linda Neville; Sarah Case on Katherine Pettit and May Stone; Juilee Decker on Enid Yandell; Carolyn R. Dupont on Georgia Montgomery Davis Powers; Angela Esco Elder on Emilie Todd Helm and Mary Todd Lincoln; Catherine Fosl on Anne Pogue McGinty and Anne McCarty Braden; Craig Thompson Friend on Nonhelema Hokolesqua, Jemima Boone Callaway, and Matilda Lewis Threlkeld; Melanie Beals Goan on Mary Breckinridge; John Paul Hill on Martha Layne Collins; Anya Jabour on Sophonisba Preston Breckinridge; William Kuby on Mary Jane Warfield Clay; Karen Cotton McDaniel on Elizabeth "Lizzie" Fouse; Melissa A. McEuen on Nancy Newsom Mahaffey; Mary Jane Smith on Laura Clay; Andrea S. Watkins on Josie Underwood and Frances Dallam Peter.

New Frontiers in Women's Studies Aug 15 2021 This text reveals the diversities which continue to shape women's beliefs and experiences. It includes debates on women and nationalisms, women and social policy, sexuality, black studies and ethnic studies, women and education, women and cultural production and women's studies and gender studies.

Lean In Oct 29 2022 The #1 international best seller In *Lean In*, Sheryl Sandberg reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of *Option B* with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to "sit at the table," seek challenges, take risks, and pursue their goals with gusto. *Lean In* continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can't do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, *Lean In* is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.

Readings in Women's Education Jun 20 2019

The Book of Gutsy Women May 24 2022 Now an eight-part docuseries on Apple TV+ Hillary Rodham Clinton and her daughter, Chelsea, share the stories of the gutsy women who have inspired them—women with the courage to stand up to the status quo, ask hard questions, and get the job done. She couldn't have been more than seven or eight years old. "Go ahead, ask your question," her father urged, nudging her forward. She smiled shyly and said, "You're my hero. Who's yours?" Many people—especially girls—have asked us that same question over the years. It's one of our favorite topics. HILLARY: Growing up, I knew hardly any women who worked outside the home. So I looked to my mother, my teachers, and the pages of *Life* magazine for inspiration. After learning that Amelia Earhart kept a scrapbook with newspaper articles about successful women in male-dominated jobs, I started a scrapbook of my own. Long after I stopped clipping articles, I continued to seek out stories of women who seemed to be redefining what was possible. CHELSEA: This book is the continuation of a conversation the two of us have been having since I was little. For me, too, my mom was a hero; so were my grandmothers. My early teachers were also women. But I grew up in a world very different from theirs. My pediatrician was a woman, and so was the first mayor of Little Rock who I remember from my childhood. Most of my close friends' moms worked outside the home as nurses, doctors, teachers, professors, and in business. And women were going into space and breaking records here on Earth. Ensuring the rights and opportunities of women and girls remains a big piece of the unfinished business of the twenty-first century. While there's a lot of work to do, we know that throughout history and around the globe women have overcome the toughest resistance imaginable to win victories that have made progress possible for all of us. That is the achievement of each of the women in this book. So how did they do it? The answers are as unique as the women themselves. Civil rights activist Dorothy Height, LGBTQ trailblazer Edie Windsor, and swimmer Diana Nyad kept pushing forward, no matter what. Writers like Rachel Carson and Chimamanda Ngozi Adichie named something no one had dared talk about before. Historian Mary Beard used wit to open doors that were once closed, and Wangari Maathai, who sparked a movement to plant trees, understood the power of role modeling. Harriet Tubman and Malala Yousafzai looked fear in the face and persevered. Nearly every single one of these women was fiercely optimistic—they had faith that their actions could make a difference. And they were right. To us, they are all gutsy women—leaders with the courage to stand up to the status quo, ask hard questions, and get the job done. So in the moments when the long haul seems awfully long, we hope you will draw strength from these stories. We do. Because if history shows one thing, it's that the world needs gutsy women.

Hyperandrogenism in Women Aug 27 2022 Hyperandrogenism profoundly affects women's lives from lowering self-esteem to changing cognition and affective motivation. The polycystic ovary syndrome (PCOS) is the most common androgen excess disorder worldwide. While it is not the focus of this book, some aspects are discussed. The aim of this book is to improve understanding of androgen excess and its impact on several conditions. Topics include development of adipose tissue in females, insulin sensitivity, congenital adrenal hyperplasia, and Cushing's disease/syndrome. There is also a discussion of PCOS with emphasis on in utero origins and specific genetic and epigenetic factors. This book provides a wealth of relevant information for every endocrinologist and gynecologist who wants to broaden their knowledge of androgens in various conditions.

A Book of Women Poets from Antiquity to Now Apr 11 2021 A monument to the literary genius of women throughout the ages, *A Book of Women Poets from Antiquity to Now* is an invaluable collection. Here in one volume are the works of three hundred poets from six different continents and four millennia. This revised edition includes a newly expanded section of American poets from the colonial era to the present. "[A] splendid collection of verse by women" (*TIME*) throughout the ages and around the world; now revised and expanded, with 38 American poets.

Contemporary Topics in Women's Mental Health Oct 05 2020 *Contemporary Topics in Women's Mental Health: Global Perspectives in a Changing Society* considers both the mental health and psychiatric disorders of women in relation to global social change. The book addresses the current themes in psychiatric disorders among women: reproduction and mental health, service delivery and ethics, impact of violence, disasters and migration, women's mental health promotion and social policy, and concludes each section with a commentary discussing important themes emerging from each chapter. Psychiatrists, sociologists and students of women's studies will all benefit from this textbook. With a Foreword by Sir Michael Marmot, Professor of Epidemiology and Public Health, University College London; Chair, Commission on Social Determinants of Health

In the Company of Women Apr 30 2020 *New York Times* Bestseller "I want to rip out every page of this glorious book and hang them on my wall so that I can be surrounded by these incredible women all day long." —Emma Straub, *New York Times* bestselling author of *The Vacationers* and *Modern Lovers* Over 100 exceptional and influential women describe how they embraced their creative spirit, overcame adversity, and sparked a global movement of entrepreneurship. Media titans and ceramicists, hoteliers and tattoo artists, comedians and architects—taken together, these profiles paint a beautiful picture of what happens when we pursue our passions and dreams.

Inherited Bleeding Disorders in Women Dec 07 2020 The essential guide for understanding and treating women with inherited bleeding disorders, revised and updated Now in its second edition, *Inherited Bleeding Disorders in Women* includes the most recent developments and research in the field. This important guide offers the most current information available for the effective management of these complex and difficult to diagnose disorders. Treating women with inherited bleeding disorders can be challenging and requires close collaboration among practitioners in different specialties. This important guide is written by a team of international experts who offer advice and practical suggestions for treating women with inherited bleeding disorders. *Inherited Bleeding Disorders in Women* comprehensively covers obstetric and gynecological issues for carriers of hemophilia, women with von Willebrand disease, rare bleeding disorders and inherited platelet disorders. This important resource: Offers an updated guide for hematologists, obstetricians and gynecologists and other clinicians treating women with inherited bleeding disorders Includes information for treating both common and rare bleeding disorders Contains the most recent developments and advances in the field for the treatment and management of inherited bleeding disorders in women Presents information from noted experts in the field Offers a multidisciplinary approach to the topic Written for hematologists, obstetricians and gynecologists and other clinicians working with women, *Inherited Bleeding Disorders in Women* has been fully revised and updated and continues to serve as a trusted guide for the management and treatment of women with inherited bleeding disorders.

A Big Important Art Book (Now with Women) Feb 21 2022 Celebrate 45 women artists, and gain inspiration for your own practice, with this beautiful exploration of contemporary creators from the founder of The Jealous Curator. Walk into any museum, or open any art book, and you'll probably be left wondering: where are all the women artists? *A Big Important Art Book (Now with Women)* offers an exciting alternative to this male-dominated art world, showcasing the work of dozens of contemporary women artists alongside creative prompts that will bring out the artist in anyone! This beautiful book energizes and empowers women, both artists and amateurs alike, by providing them with projects and galvanizing stories to ignite their creative fires. Each chapter leads with an assignment that taps into the inner artist, pushing the reader to make exciting new work and blaze her own artistic trail. Interviews, images, and stories from contemporary women artists at the top of their game provide added inspiration, and historical spotlights on art "herstory" tie in the work of pioneering women from the past. With a stunning, gift-forward package and just the right amount of pop culture-infused feminism, this book is sure to capture the imaginations of aspiring women artists.

Reconstructing Desire Jul 02 2020 This provocative study explores the function of the unconscious in reading and creative processes. The book asks if reading can change the reader and if women, through reading, can change the unconscious fantasy structures that govern desire. Using models

Unwell Women Jul 14 2021 A trailblazing, conversation-starting history of women's health—from the earliest medical ideas about women's illnesses to hormones and autoimmune diseases—brought together in a fascinating sweeping narrative. Elinor Cleghorn became an unwell woman ten years ago. She was diagnosed with an autoimmune disease after a long period of being told her symptoms were anything from psychosomatic to a possible pregnancy. As Elinor learned to live with her unpredictable disease she turned to history for answers, and found an enraging legacy of suffering, mystification, and misdiagnosis. In *Unwell Women*, Elinor Cleghorn traces the almost unbelievable history of how medicine has failed women by treating their bodies as alien and other, often to perilous effect. The result is an authoritative and groundbreaking exploration of the relationship between women and medical practice, from the "wandering womb" of Ancient Greece to the rise of witch trials across Europe, and from the dawn of hysteria as a catchall for difficult-to-diagnose disorders to the first forays into autoimmunity and the shifting understanding of hormones, menstruation, menopause, and conditions like endometriosis. Packed with character studies and case histories of women who have suffered, challenged, and rewritten medical orthodoxy—and the men who controlled their fate—this is a revolutionary examination of the relationship between women, illness, and medicine. With these case histories, Elinor pays homage to the women who suffered so strides could be made, and shows how being unwell has become normalized in society and culture, where women have long been distrusted as reliable narrators of their own bodies and pain. But the time for real change is long overdue: answers reside in the body, in the testimonies of unwell women—and their lives depend on medicine learning to listen.

Just Us Women Jun 13 2021 "No boys and no men—just us women," Aunt Martha tells her niece. And together they plan their trip to North Carolina in Aunt Martha's brand-new car. This is to be a very special outing—with no one to hurry them along, the two travelers can do exactly as they please.

Insurgent Women Jun 01 2020 Why do women go to war? Despite the reality that female combatants exist the world over, we still know relatively little about who these women are, what motivates them to take up arms, how they are utilized by armed groups, and what happens to them when war ends. This book uses three case studies to explore variation in women's participation in nonstate armed groups in a range of contemporary political and social contexts: the civil war in Ukraine, the conflicts involving Kurdish groups in the Middle East, and the civil war in Colombia. In particular, the authors examine three important aspects of women's participation in armed groups: mobilization, participation in combat, and conflict cessation. In doing so, they shed light on women's pathways into and out of nonstate armed groups. They also address the implications of women's participation in these conflicts for policy, including postconflict programming. This is an accessible and timely work that will be a useful introduction to another side of contemporary conflict.

Cardiovascular Disease in Women Aug 03 2020 Heart disease remains the leading cause of morbidity and mortality in the industrialized countries and can occur in men and women of any age. The contributors to this special issue, all of them leading authors in the field, focus on cardiovascular disease in women. As a result, this publication gives an up-to-date overview of the latest developments in this particular field, with information ranging from basic concepts to the treatment of women patients and including social aspects. The articles discuss topics such as coronary artery disease and its prevention, myocardial infarction and its treatment, congestive heart failure, stroke, peripheral vascular disease, estrogen replacement as well as on-going clinical trials. 'Cardiovascular Disease in Women' takes a further step towards the solving of an international health care problem and will be of interest to practising physicians, nurses, students of medicine and clinical researchers all over the world.

Research Guide in Women's Studies Sep 23 2019

Reading Women Jul 22 2019 When Stephanie Staal first read *The Feminine Mystique* in college, she found it "a mildly interesting relic from another era." But more than a decade later, as a married stay-at-home mom in the suburbs, Staal rediscovered Betty Friedan's classic work—and was surprised how much she identified with the laments and misgivings of 1950s housewives. She set out on a quest: to reenroll at Barnard and re-read the great books she had first encountered as an undergrad. From the banishment of Eve to Judith Butler's *Gender Trouble*, Staal explores the significance of each of these classic tales by and of women, highlighting the relevance these ideas still have today. This process leads Staal to find the self she thought she had lost—curious and ambitious, zany and critical—and inspires new understandings of her relationships with her husband, her mother, and her daughter.

New Occasional Papers in Women's Studies Jan 28 2020

Behind the Mask Mar 10 2021 This boldly original book explores the origins, meanings, and forms of women's aggression. Drawing from in-depth interviews with sixty women of different ages and ethnic and class backgrounds—police officers, attorneys, substance abusers, homemakers, artists—Dana Jack provides a rich account of how women explain (or explain away) their own hidden or actual acts of hurt to others. With sensitivity but without sentimentality, Jack gives readers a range of compelling stories of how women channel, either positively or destructively, their own powerful force and of how they resist and retaliate in the face of others' aggression in a society that expects women to be yielding, empathetic, and supportive. Arguing that aggression arises from failures in relationships, Jack portrays the many forms that women's aggression can take, from veiled approaches used to resist, control, and take vengeance on others, to aggression that reflects despair, to aggression that may be a hopeful sign of new strength. Throughout the book, Jack shows the positive sides of aggression as women struggle with internal and external demons, reconnect with others, and create the courage to stand their ground. This work broadens our understanding of aggression as an interpersonal phenomenon rooted in societal expectations, and offers exciting new approaches for exploring the variations of this vexing human experience.
