[The New Patriarchs of Digital Capitalism](#) Sep 04 2020 This book offers an original critique of the billionaire founders of US West Coast tech companies, addressing their collective power, influence, and ideology, their group dynamics, and the role they play in the wider sociocultural and political formations of digital capitalism.

Interrogating not only the founders' political and economic ambitions, but also how their corporations are omnipresent in our everyday lives, the authors provide robust evidence that a specific kind of patriarchal power has emerged as digital capitalism's mode of command. The 'New Patriarchs' examined over the course of the book include: Sergey Brin and Larry Page of Google, Elon Musk of Tesla, Jeff Bezos of

Amazon, Mark Zuckerberg of Facebook, and Peter Thiel. We also include Sheryl Sandberg. The book analyses how these (mostly) men legitimate their rapidly acquired power, tying a novel kind of socially awkward but 'visionary' masculinity to exotic forms of shareholding. Drawing on a ten million word digital concordance, the authors intervene in feminist debates on patriarchy, masculinity, and postfeminism, locating the power of the founders as emanating from a specifically racialised structure of oppression tied to imaginaries of the American frontier, the patriarchal household, and settler colonialism. This is an important interdisciplinary contribution suitable for researchers and students across Digital Media, Media and Communication, and Gender and Cultural Studies.

**Computer Modelling of Structural Transformations of Nanopores in Fcc Metals**

Mar 30 2020 The book focuses on the effects of shock waves on vacancies and their clusters in fcc crystals. It is shown that high-speed cooperative atomic displacements represent a powerful tool for the purposeful modification of defect structures in crystalline bodies. The results are important for radiation material science, nano-engineering, the study of shock wave effects and the ultrasonic treatment of materials. Keywords: Computer Modelling of Nanopores, Molecular Dynamics, Fcc Metals, Defect Structures in Crystals, Radiation Material Science, Nano-Engineering of Materials, Ultrasonic Treatment of Materials, Radiation Induced Defects, Vacancy Clusters, Shock Wave Effects, Radiation-Resistant Materials, Thermomechanical Processing, Energy Transfer Mechanism, Nanopore Nucleation, Nanopore Based Filters, Nanopore Based Detectors, Cooling Elements in Nano-Electronics.  
*Suspect Citizens* Jun 01 2020 *Suspect Citizens* offers the most comprehensive look to date at

the most common form of police-citizen interactions, the routine traffic stop. Throughout the war on crime, police agencies have used traffic stops to search drivers suspected of carrying contraband. From the beginning, police agencies made it clear that very large numbers of police stops would have to occur before an officer might interdict a significant drug shipment. Unstated in that calculation was that many Americans would be subjected to police investigations so that a small number of high-level offenders might be found. The key element in this strategy, which kept it hidden from widespread public scrutiny, was that middle-class white Americans were largely exempt from its consequences. Tracking these police practices down to the officer level, Suspect Citizens documents the extreme rarity of drug busts and reveals sustained and troubling disparities in how racial groups are treated. **Classic Seagrave** Jan 28 2020 Fire apparatus aficionados Walt McCall and Matt Lee, have assembled these beautiful photographs to illustrate the wide range of body designs used on the classic Seagrave chassis. See all kinds of Classic Seagraves, ranging from wide-open doorless cab models with sporty one-piece fold-down windshields, to radically streamlined completely enclosed Safety Sedan bodies. This design was utilized for virtually every type of fire apparatus - pumping engines, aerial ladder trucks of both the straight frame and articulated tractor trailer type, city service ladder trucks, quadruple and quintuple combinations, and special units like rescue squad trucks and hose trucks. The classic Seagrave is timeless. Its

distinctive waterfall grille is widely regarded as a high mark in the 20th Century American fire engine builder's unique art. If you're a fire apparatus enthusiast, you'll want to add this book to your collection.

**Ezekiel and Daniel** Nov 18 2021 Many today find the Old Testament a closed book. The cultural issues seem insurmountable and we are easily baffled by that which seems obscure. Furthermore, without knowledge of the ancient culture we can easily impose our own culture on

the text, potentially distorting it. This series invites you to enter the Old Testament with a company of guides, experts that will give new insights into these cherished writings. Features include • Over 2000 photographs, drawings, maps, diagrams and charts provide a visual feast that breathes fresh life into the text. • Passage-by-passage commentary presents archaeological findings, historical explanations, geographic insights, notes on manners and customs, and more. • Analysis into the literature of the ancient Near East will open your eyes to new depths of understanding both familiar and unfamiliar passages. • Written by an international team of 30 specialists, all top scholars in background studies.

**I'm Just a Girl Who Loves Reading!** May 12 2021 If you are the kind of person who loves reading and enjoys filling things out then this 2020 reading log was made for you! Created by a book lover for fellow book lovers, it has been thoughtfully planned to track, review, and reflect on the books you read in 2020. This journal includes space to record up to 100 book reviews. Each page includes a section to list details about the book which will make it easier to remember it later. Next on the page are three spaces to write down favorite quotes and passages. If you

need more than three spaces for quotes there is additional room in the back of the journal. Then you will rate the book's characters, theme, plot, writing style, ending, and lastly give it an overall rating and final assessment. It also includes monthly planners where you can list goals, take notes, track progress, and track pages read on a calendar. TBR (To Be Read) list to track books you'd like to read throughout the year, their genre, number of pages, and priority. Series tracker to remember which series you are reading, the author, number of books in the series, and which books you have already read. Simply list the number of the books as you read them so you know where you are in each series. The journal wraps up with a few fun pages where you can reflect on what you read during the year by picking favorites, picking the best book in a variety of categories, and determining which character from a book you read in 2020 best fits a list of superlatives. This journal is the size of a composition notebook (7.44" x 9.69")

and it is perfect bound paperback. This same interior is available with different covers.

*Levinas, Judaism, and the Feminine* Jan 20 2022 Challenging previous interpretations of Levinas that gloss over his use of the feminine or show how he overlooks questions raised by feminists, Claire Elise Katz explores the powerful and productive links between the feminine and religion in Levinas's work. Rather than viewing the feminine as a metaphor with no significance for women or as a means to reinforce traditional stereotypes, Katz goes beyond questions of

sexual difference to reach a more profound understanding of the role of the feminine in Levinas's conception of ethical responsibility. She combines feminist interpretations of Levinas with interpretations that focus on his Jewish writings to reveal that the feminine provides an important bridge between his philosophy and his Judaism. Katz's reading of Levinas's conception

of the feminine against the backdrop of discussions of women of the Hebrew bible points to important shifts in contemporary philosophy toward the creation of life and care for the other.
