**Gender in Agriculture Sourcebook** Jun 26 2019 The 'Gender in Agriculture Sourcebook' provides an up-to-date understanding of gender issues and a rich compilation of compelling evidence of good practices and lessons learned to guide practitioners in integrating gender dimensions into agricultural projects and programs. It serves as a tool for: guidance; showcasing key principles in integrating gender into projects; stimulating the imagination of practitioners to apply lessons learned, experiences, and innovations to the design of future support and investment in the agriculture sector. The Sourcebook draws on a wide range of experience from World Bank, Food and Agriculture Organization (FAO), International Fund for Agricultural Development (IFAD), and other donor agencies, governments, institutions, and groups active in agricultural development. The Sourcebook looks at: access to and control of assets; access to markets, information and organization; and capacity to manage risk and vulnerability through a gender lens. There are 16 modules covering themes of cross-cutting importance for agriculture with strong gender dimensions (Policy, Public Administration and Governance; Agricultural Innovation and Education; Food Security; Markets; Rural Finance; Rural Infrastructure; Water; Land; Labor; Natural Resource Management; and Disaster and Post-Conflict Management) and specific subsectors in agriculture (Crops, Livestock, Forestry, and Fisheries). A separate module on Monitoring and Evaluation is included, responding to the need to track implementation and development impact. Each module contains three different sub-units: (1) A Module Overview gives a broad introduction to the topic and provides a summary of major development issues in the sector and rationale of looking at gender dimension; (2) Thematic Notes provide a brief and technically sound guide in gender integration in selected themes with lessons learned, guidelines, checklists, organizing principles, key questions, and key performance indicators; and (3) Innovative Activity Profiles describe the design and innovative features of recent and exciting projects and activities that have been implemented or are ongoing.

**Communication and Sex-role Socialization** Sep 29 2019 Originally published in 1993. The essays in this book collectively seek to illuminate the role of communication and sex-role socialization throughout the life cycle. Section 1 addresses some important issues and behaviours that have an impact on the beginnings of the socialization process. Section 2 covers socialization later on in relationships, the workplace and the political arena while section 3 looks at manifestations of socialization through communication strategies and skills. Finally section 4 addresses ways to alter socialization through instructional practices in higher education. The approach to studying sex-role socialization varies by perspective and methodology and conclusions are interpreted in diverse ways but the results have been very similar and the research in this volume shows that the socialization of males and females continues to reinforce male dominance despite women's advancement toward equal status in society. This work is of interest in the fields of sociology, psychology, anthropology and women's studies as well as communication.

Hate Unleashed: America's Cataclysmic Change Feb 24 2022 This book investigates the psychological factors that led to the election of Donald Trump and the accompanying escalation of hate violence and intolerance in the United States. Jesus Unleashed Oct 11 2020 Luke's narrative of Jesus was presented to Christians who had already heard and read stories of Jesus and the birth of this new movement, Christianity. Luke seemed to rewrite the story of Jesus similar to ancient epics of the history of a nation, a movement, and the tale of a hero. Jesus and the church emerged in occupied Judea, a nation that was not only oppressed but was in exile. Occupied Judea, however, struggled for power and honor and in turn, for marginalized people who needed God. Jesus, the epic hero, journeyed to earth and Jerusalem to free those on the margins of society. This epic story lives on today in a church that also has heard the story of Jesus, but has forgotten that the friend of sinners calls Christians to also reach those who are marginalized by our occupied culture. Luke invites Christians to emerge as a movement that seeks and saves those ostracized by our communities.

**Handbook of Gender, Work and Organization** Apr 28 2022 This work of reference represents a remarkably complete, detailed and extensive review of the field of gender, work and organization in the second decade of the 21st century. Its authors represent eight countries and many disciplines including management, sociology, political science, and gender studies. The chapters, by top scholars in their areas of expertise, offer both reviews and empirical findings, and insights and challenges for further work. The chapters are organized in five sections: Histories and Philosophies; Organizing Work and the Gendered Organization; Embodiment; Globalization; and Diversity. Theoretical and conceptual developments at the cutting edge of the field are explicated and illustrated by the handbook's authors. Methods for conducting research into gender, work and organization are reviewed and assessed as well as illustrated in the work of several chapters. Efforts to produce greater gender equality in the workplace are covered in nearly every chapter, in terms of past successes and failures. Military organizations are presented as one of the difficult to change in regards to gender (with the result that women are marginalized in practice even when official policies and goals require their full inclusion). The role of the body/embodiment is emphasized in several chapters, with attention both to how organizations discipline bodies and how organizational members use their bodies to gain advantage. Particular attention is paid to sexuality in/and organizations, including sexual harassment, policies to alleviate bias, and the likelihood that future work will pay more attention to the body's presence and role in work and organizations. Many chapters also address "change efforts" that have been employed by individuals, groups, and organizations, including transnational ones such as the European Union, the United Nations, and so on. In addition to its value for teachers and students within this field, it also offers insights that would be of value to policy makers and practitioners who need to reflect on the latest thinking relating to gender at work and in organizations.

External Devaluations Aug 28 2019 The paper investigates whether the macroeconomic effects of external devaluations have systematically different effects in small states, which are typically more open and less diversified than larger peers. Through several analytical approaches -- DSGE model, event study, and regression analysis -- it finds that the effects of devaluation on

growth and external balances are not significantly different between small and large states, with both groups equally likely to experience expansionary or contractionary outcomes. However, the transmission channels are different: devaluations in small states are more likely to affect demand through expenditure compression, rather than expenditure-switching channels. In particular, consumption tends to fall more sharply in small states due to adverse income effects, thereby reducing import demand. Policy conclusions point to the importance of social safety nets, complementary wage and antiinflation policies, investment-boosting reforms, and attention to potential adverse balance sheet effects to ensure positive outcomes.

*Unleash the Lach* Aug 09 2020 Unleash The Lach is the first novel in a saga series revolving around the mystique of the Lach Ness monster; a Los Angeles family takes flight to Scotland, unable to put up with another day in L.A. The mother has had it and if you tire of her chronic societal vengeance, please turn to the adventures about the Lach, a subterranean dominatrix protecting her underground culture's food source, two neighboring tribes inhabiting sustainable, eclectic and ritualistically innovative cave dwellings, Mr. Kelivery and his plan to save the people, and the scores of other characters and encounters bearing in on them amidst the lush green highlands. This is a highly philosophical and psychological engagement. If any of it is too much on you, skip to the good part. It's really about the writing. Yet clearly that all the characters are sometimes too stuck in their own minds to truly let go and enjoy the adventure

Redeeming Leadership Oct 30 2019 How might imperialist, masculinist and white supremacist grips on leadership be loosened? In this thought-provoking and accessible new study, Helena Liu suggests that anti-racist feminism can challenge conventional models and practices of power. Combining a critical review of leadership theory with enlightening examples from around the world, the book shows how the intellectual and activist elements of feminist movements provide antidotes to contemporary leadership research and practice. For those interested in management, organisation, feminism, race and many more studies, it sets the agenda for a radical reimagining of control and leadership in all its forms.

**Unleashed** Jan 14 2021 The Power of Empowering Others Leadership isn't easy. It takes grit, courage, and vision, among other things, that can be hard to come by on your toughest days. When leaders and aspiring leaders seek out advice, they're often told to try harder. Dig deeper. Look in the mirror and own your natural-born strengths and fix any real or perceived career-limiting deficiencies. Frances Frei and Anne Morriss offer a different worldview. They argue that this popular leadership advice glosses over the most important thing you do as a leader: build others up. Leadership isn't about you. It's about how effective you are at empowering other people—and making sure this impact endures even in your absence. As Frei and Morriss show through inspiring stories from ancient Rome to present-day Silicon Valley, the origins of great leadership are found, paradoxically, not in worrying about your own status and advancement, but in the unrelenting focus on other people's potential. Unleashed provides radical advice for the practice of leadership today. Showing how the boldest, most effective leaders use a special combination of trust, love, and belonging to create an environment in which other people can excel, Frei and Morriss offer practical, battle-tested tools—based on their work with companies such as Uber, Riot Games, WeWork, and others—along with interviews and stories from their own personal experience, to make these ideas come alive. This book is your indispensable guide for unleashing greatness in other people . . . and, ultimately, in yourself. To learn more, please visit [theleadersguide.com](http://theleadersguide.com).

Unleashed Oct 23 2021 Drawing on evidence from both sides of the Atlantic, Simon Harding explores the culture of the status dog in *Unleashed*. In housing projects in the United States and United Kingdom, certain dog breeds convey status—authority, respect, power, and control—on their owners, while urban street gangs have developed the dangerous practice of training dogs to be weapons. Combining perspectives from sociology, criminology, and public policy, Harding contextualizes these related phenomena and considers the complex mix of factors motivating them, including urban deprivation, social control of public space, and the influence of media imagery.

*Unleashed* Dec 13 2020 This is the first book in the UK or US to set on record the recent cultural phenomenon of the use of certain dog breeds - both legal and illegal - to 'convey status' upon their owners. Such dogs are easily visible on social housing estates throughout the UK and in projects in the USA and provide acquired authority, respect, power and control. However they are increasingly linked to urban street gangs as 'Weapon Dogs' and present a danger to the ordinary public especially those using parks and open spaces with increased injuries being presented at UK hospitals. Though initially slow to react, local and statutory

authorities are now seeking to address the issue through action plans and interventions. Written in a fresh, engaging and accessible style, this unique book contextualizes the phenomenon in terms of sociology, criminology and public policy. It considers a complex mix of urban and social deprivation, social control of public space and the influence of contemporary media imagery and 'gangsta' culture. It will make essential reading for academics and policy makers in criminology and criminal justice and those working with animal rights/animal welfare groups.

Mating Intelligence Unleashed Sep 21 2021 Psychologists often paint a picture of human mating as visceral, instinctual. But that's not the whole story. In courtship and display, sexual competition and rivalry, we are also guided by what Glenn Geher and Scott Barry Kaufman call Mating Intelligence--a range of mental abilities that have evolved to help us find the right partner. Mating Intelligence is at work in our efforts to form, maintain, and end relationships. It guides us in flirtation, foreplay,

copulation, finding and choosing a mate, and many other behaviors. In *Mating Intelligence Unleashed*, psychologists Geher and Kaufman take readers on a fascinating tour of the crossroads of mating and intelligence, drawing on cutting-edge research on evolutionary psychology, intelligence, creativity, personality, social psychology, neuroscience, and more. The authors show that despite what you may read in the latest issue of Maxim, Playboy, Vogue, or GQ, physical attractiveness isn't the whole story. Human mating draws on a range of mental skills and attributes--from the creative use of pick-up lines, to displays of charisma, intelligence, humor, personality, and compassion. Along the way, the authors shed new light on age-old questions, such as: What role does personality play in mating? Which traits are attractive--and which traits repulse? How do people really choose mates? How do men and women deceive each other? How important is emotional intelligence? Why do people create art--and does it have anything to do with sex? Do nice guys really finish last? Since Glenn Geher coined the term Mating Intelligence in 2006, it has drawn a great deal of media attention, ranging from a Psychology Today cover story to articles in the New Scientist, the Washington Times, the Huffington Post, and elsewhere. Now, in *Mating Intelligence Unleashed*, readers will have the first full account of this revolutionary new approach to dating, mating, and love.

The elephant is unconvinced. To him, the house is the problem... R. *African American Literacies Unleashed* May 06 2020 This pioneering study of African American students in the composition classroom lays the groundwork for reversing the cycle of underachievement that plagues linguistically diverse students. *African American Literacies Unleashed: Vernacular English and the Composition Classroom* approaches the issue of African American Vernacular English (AAVE) in terms of teacher knowledge and prevailing attitudes, and it attempts to change current pedagogical approaches with a highly readable combination of traditional academic discourse and personal narratives. Realizing that composition is a particular form of social practice that validates some students and excludes others, Arnetha Ball and Ted Lardner acknowledge that many African American students come to writing and composition classrooms with talents that are not appreciated. To empower and inform practitioners, administrators, teacher educators, and researchers, Ball and Lardner provide knowledge and strategies that will help unleash the potential of African American students and help them imagine new possibilities for their successes as writers. *African American Literacies Unleashed* asserts that necessary changes in theory and practice can be addressed by refocusing attention from teachers' knowledge deficits to the processes through which teachers engage information relevant to culturally informed pedagogy. Providing strategies for unlearning racism in the classroom and changing the status quo, this volume stresses the development and maintenance of a real sense of teaching efficacy—teachers' beliefs in their abilities to connect with and work effectively with all students—and reflective optimism—teachers' informed expectations that all students have the potential to succeed.

Critical Thinking Unleashed Feb 01 2020 From alcohol and drug addiction to rage on national highways and in airports, many human beings have kept themselves in perpetual turmoil and despair. From encroachment on individual rights and liberties to wars of attrition and mass genocide, human history has continually repeated itself due to a failure to see the light. Containing numerous skill-building exercises, Critical Thinking Unleashed seeks to cultivate the reasoning skills required to overcome such destructive human tendencies and to live meaningful and productive lives in a democratic society. In contrast to other treatments of practical reasoning, Elliot D. Cohen not only teaches students how to identify and refute irrational premises—he also teaches them how to construct rational antidotes to combat the personal, social, and political obstacles they confront in everyday life. Moreover, Cohen encourages students to use the theories and ideas embodied in the history of philosophy in order to construct these rational guides, drawing examples from many contemporary sources. Demonstrating the practical relevance and import of many historically significant philosophers (e.g. Socrates, Aristotle, Epictetus, Hume, Kant, Mill, Sartre, and Nietzsche), the book presents a practical, non-technical, and comprehensive approach to critical thinking.

*Gender Power and Mediation* Mar 16 2021 This book investigates the practice of family mediation and some of the challenges that may hinder its effective use by marginalised groups in a society. Those challenges include gendered power disparity and family violence, especially towards women, and the discussion extends to how the challenges can be overcome through a practice of evaluative mediation to provide fair outcomes for women. Unlike other contemporary books on mediation, this book not only discusses different theories of power and equity in mediation, it also includes a number of verbatim quotes from different mediation sessions to demonstrate how those theories are operationalised in a real life context. While other contemporary texts on mediation focus on Western style facilitative mediation and its limitations in attaining fair justice for women enduring gendered power disparity and family violence, this text emphasises an evaluative mediation style that is embedded in Eastern social practices. Instead of focusing on gendered power disparity and family violence as limitations on the practice of facilitative mediation, this book details the practice of evaluative mediation which may provide fair justice to women despite the presence of gendered power disparity and family violence in a society.
