**Shaking Up Prohibition in New Orleans** Oct 12 2020 In the 1920s Prohibition was the law, but ignoring it was the norm, especially in New Orleans. While popular writers such as F. Scott Fitzgerald invented partygoers who danced from one cocktail to the next, real denizens of the French Quarter imbibed their way across the city. Bringing to life the fiction of flappers with tastes beyond bathtub gin, **Shaking Up Prohibition in New Orleans: Authentic Vintage Cocktails** from A to Z serves up recipes from the era of the speakeasy. Originally assembled by Olive Leonhardt and Hilda Phelps Hammond around 1929, this delightful compendium applauds the city's irrepressible love for cocktails in the format of a classic alphabet book. Leonhardt, a noted artist, illustrated each letter of the alphabet, while Hammond provided cocktail recipes alongside tongue-in-cheek poems that jab at the dubious scenario of a "dry" New Orleans. A cultural snapshot of the Crescent City's resistance to Prohibition, this satirical, richly illustrated book brings to life the spirit and spirits of a jazz city in the Jazz Age. With an introduction on Prohibition-era New Orleans by historian John Magill and biographical profiles of Leonhardt and Hammond by editor Gay Leonhardt, readers can fully appreciate the setting and the personalities behind this vintage cocktail guide with a Big Easy bent. A perfect gift for lovers (and makers) of craft cocktails, arbiters of style, and celebrants of the Crescent City, **Shaking Up Prohibition in New Orleans** captures the essence of the Roaring Twenties.

Ctrl + Z Jun 19 2021 Jones offers insight into the digital debate over data ownership, permanence and policy by breaking down the argument over the controversial right to be forgotten—which would create a legal duty to delete, hide, or anonymize information at the request of another user. She provides guidance for a way forward, arguing that the existing perspectives are too limited, offering easy forgetting or none at all. By looking at new theories of privacy and organizing the many potential applications of the right, law and technology, Jones offers a set of nuanced choices. To help us choose, she provides a digital information life cycle, reflects on particular legal cultures, and analyzes international interoperability. In the end, the author claims that the right to be forgotten can be innovative, liberating, and globally viable. --Adapted from publisher description.

The A to Z of Early North America Aug 10 2020 Those unfamiliar with the prehistory of North America have a general perception of the cultures of the continent that includes Native Americans living in tipis, wearing feathered headdresses and buckskin clothing, and following migratory bison herds on the Great Plains. Although these practices were part of some Native American societies, they do not adequately represent the diversity of cultural practices by the overwhelming majority of Native American peoples. Media misrepresentations shaped by television and movies along with a focus on select regions and periods in the history of the United States have produced an extremely distorted view of the indigenous inhabitants of the continent and their cultures. The indigenous populations of North America created impressive societies, engaged in trade, and had varied economic, social, and religious cultures. Over the past century, archaeological and ethnological research throughout all regions of North America has revealed much about the indigenous peoples of the continent. This book examines the long and complex history of human occupation in North America, covering its distinct culture as well as areas of the Arctic, California, Eastern Woodlands, Great Basin, Great Plains, Northwest Coast, Plateau, Southwest, and Subarctic. Complete with maps, a chronology that spans the history from 11,000 B.C. to A.D. 1850, an introductory essay, more than 700 dictionary entries, and a comprehensive bibliography, this reference is a valuable tool for scholars and students. An appendix of museums that have North American collections and a listing of archaeological sites that allow tours by the public also make this an accessible guide to the interested lay reader and high school student.

Nueva York: Hora Z Jun 27 2019 Una nueva plaga parecida al virus de la rabia asola el mundo e infecta a millones de personas. Estados Unidos ordena el regreso a casa de sus tropas para custodiar los hospitales. La situación parece estar bajo control hasta que los infectados se vuelven violentos y atacan a la población. El teniente Todd Bowman, un superviviente de la guerra de Iraq, debe dirigir a sus hombres para proteger un laboratorio que podrá tener la cura para el virus. Para sobrevivir a esta misión, para salvar lo que queda del mundo, los hombres del segundo pelotón se enfrentarán a las personas que juraron defender. Personas que se han convertido en una ingente horda infectada, armada sólo con uñas y dientes.

Dying for the Truth Oct 04 2022 What is the value of telling the truth? For independent blog reporters in the midst of the Mexican Drug War, it's as important as their very lives, which are threatened on a daily basis. Blog del Narco is a heavily visited website, both in Mexico and the rest of North America, and it reveals the horrible savagery of the drug cartels. More than this, it also speaks of corruption and violence from the government itself. Many journalists in Mexico have been killed and silenced. Blog del Narco is not run by professional journalists, but it's the only forum for the true story of the violent drug war. Dying for the Truth is the first and only book release that contains both text and images, many of them gruesome, from this vital public forum. This book contains both the original Spanish-language posts in addition to their English translations. Truth is risky, and sometimes it's also harsh. Here is the reality of the Mexican Drug War, created in part by American demand for the products controlled by the cartels and their government collaborators. The Blog del Narco authors live anonymously and under threat in Mexico and aspire to relocate to the United States.

The A to Z of the Seventh-Day Adventists Nov 24 2021 Covering the Millerite movement of the 1830s and 1840s, sabbatarian Adventism prior to organization of the denomination, and the Seventh-day Adventist Church since its organization in 1861-63, this volume provides a comprehensive history of the denomination. The first major element of the book is a chronology of Adventist history that begins with William Miller's conclusion in 1818 that the Second Advent of Jesus would occur about 1843 and extends through the Science and Theology Conferences of 2002-04. The interpretive introduction that follows places the emergence of Adventism within the context of the Second Great Awakening, describes the development of sabbatarian Adventism from its early opposition to church organization to its highly institutionalized and bureaucratically structured contemporary form, and examines the denomination's geographical expansion from a small North American sect to a global church. The dictionary entries that constitute the bulk of the volume address individuals, organizations, institutions, and doctrines that have been important in the history of the church, including dissident movements and individuals who have emerged as critics of the denomination and its beliefs. Second, there are entries on the development and current situation of Adventism in many individual countries. Finally, thematic entries on such subjects as art, music, literature, health care, and women address other elements important to understanding church life. The dictionary entries are followed by a bibliography of scholarly and popular works published by the denomination, commercial and academic presses, and individuals and organizations.

The Origin and Evolution of Mammals Feb 13 2021 Mammals are the dominant large animals of today, occurring in virtually every environment. This book is an account of the remarkable 320 million year long fossil record that documents their origin, their long spell as no more than small, nocturnal creatures, and their explosive radiation since the extinction of the dinosaurs 65 million years ago. Tom Kemp also unveils the exciting molecular evidence, which, coupled with important new fossils, is presently challenging current thinking on the interrelationships and historical biogeography of mammals. The Origin and Evolution of Mammals will be of interest to advanced undergraduate and graduate students as well as researchers in vertebrate palaeontology, biogeography, mammalian systematics and molecular taxonomy. It will also be welcomed by vertebrate fossil enthusiasts and evolutionary biologists of all levels with an interest in macroevolutionary problems.

The Rise of Thana-Capitalism and Tourism Dec 14 2020 We live in a society that is bombarded by news of accidents, disasters and terrorist attacks. We are obsessed by the presence of death. It is commodified in newspapers, the media, entertainment and in our cultural consumption. This book explores the notion of an emergent class of "death-seekers" who consume the spectacle of the disaster, exploring spaces of mass death and suffering. Sites that are obliterated by disasters or tragic events are recycled and visually consumed by an international audience, creating a death-seekers economy. The quest for the suffering of others allows for a much deeper reinterpretation of life, and has captivated the attention of many tourists, visiting sites such as concentration camps, disasters zones, abandoned prisons, and areas hit by terrorism. This book explores the notion of the death-seekers economy, drawing on the premise that the society of risk as imagined by postmodern sociology sets the pace to a new society: thana-capitalism. The chapters dissect our fascination with other's suffering, what this means for our own perceptions of the self, and as a tourist activity. It also explores the notion of an economy of impotence, where citizens feel the world is out of control. This compelling book will be interest to students and scholars researching dark tourism, tourist behaviour, disaster studies, cultural studies and sociology.
